PY2016 Data Integrity Tool Change Log

Type of Change	Version Number	Version Date	Summary of Changes
Initial Release	v1.0	3/27/15	• Not applicable
Corrections to Previous DIT v1.0	v1.1	4/2/15	• Corrects the Plans & Benefits template import for all deductible fields • Corrects cross validations between the Plans & Benefits and URR templates, when the URR identifies the plan as off the exchange • Corrects the Error Type for the validation 'Plan IDs in Rates Table Template Found in Plans & Benefits Template' to a Warning
Corrections to Previous DIT v1.1	v1.2	4/24/15	• Corrects all cross validations between the Plans & Benefits and URR templates • Corrects Business Rules validations to properly reference the issuer-level rule
Modification of Cross Validation between Plans & Benefits and Unified Rate Review Templates	v1.2	4/24/15	• Excludes catastrophic plans from the cross validation on the EHB Percent of Total Premium field • Changes the Error Type for the cross validation of the EHB Percent of Total Premium field to a Warning for SHOP plans
New Cross Validation Between Plans & Benefits Template and Unified Rate Review Template	v1.2	4/24/15	• An Error message will appear if a QHP has different values for market between the Plans & Benefits template and URR Template
New Validation for Plans & Benefits Template	v1.2	4/24/15	• A Warning message will appear if a non-catastrophic QHP in the Individual market does not cover a benefit out of network but the plan's associated zero cost sharing variation has an out of network coinsurance not equal to 100%
New Template Version Number for Unified Rate Review Template	v1.2	4/24/15	• Allows import of versions v2.0.3 and v2.0.4 of the URR Template

Type of Change	Version Number	Version Date	Summary of Changes
Updates for Clarification	v1.2	4/24/15	• Adds a new error message if the Drug Lists worksheet tab in the Prescription Drugs template contains no data • Modifies error messages for dental plans to refer to the Dental Deductible and MOOP instead of Combined Medical/Drug • Modifies Instructions tab to clarify that no other files can be located in folders containing templates to import
