3	D0150	D-7	<ul style="list-style-type: none"> Some items (e.g., item D0150F) contain more than one phrase. If a resident gives different frequencies for the different parts of a single item, select the highest frequency as the score for that item. In the rare situation that the resident cannot provide a frequency, following a yes response to a symptom in Column 1, enter a dash in Column 2. CMS expects a dash response to be rare. Residents may respond to questions: <ul style="list-style-type: none"> — verbally, — by pointing to their answers on the cue card, <u>OR</u> — by writing out their answers.
3	D0160	D-11	<ul style="list-style-type: none"> If the PHQ-9[®] was completed (that is, D0150C–I were not blank due to the responses in D0150A and B) and if the resident answered the frequency responses of at least 7 of the 9 items on the PHQ-9[®], add the numeric scores from D0150A2–D0150I2, following the instructions in Appendix E, and enter in D0160. If symptom frequency in items D0150A2 through D0150I2 is blank or dashed for 3 or more items, the interview is deemed NOT complete. Total Severity Score should be coded as “99,” do not complete the Staff Assessment of Mood, and skip to D0700, Social Isolation. Enter the total score as a two-digit number. The Total Severity Score will be between 00 and 27 (or “99” if symptom frequency is blank for 3 or more items).
