Subject: CY 2015 Medicare & You Handbook - Gap Coverage Display

CMS has identified a bug with the Contract Year (CY) 2015 Medicare & You Handbook Preview. The gap coverage display for plans that provide additional gap coverage for a subset of tiers was not displaying properly. The data for these plans only displayed the additional gap coverage cost sharing and did not include the standard gap coverage cost sharing values.

This issue has now been resolved. All organizations should re-verify their Medicare & You Handbook data by navigating to Plan Bids > Bene Education Data Previews > Handbook Preview > CY2015.

As a reminder, this preview period closes today, Monday, August 25 at 6:00 p.m., EDT.

We apologize for the inconvenience. Thank you for your attention to this matter.
