

**CENTER FOR MEDICARE**

---

**DATE:** December 11, 2014

**TO:** All Medicare Part D Sponsors, Industry, and Advocates

**FROM:** Amy K. Larrick, Acting Director  
Medicare Drug Benefit and C & D Data Group

**SUBJECT:** Presentation of the Medicare Part D Study Results on Access to Preferred Cost Sharing Pharmacies – December 16 & December 17

CMS invites Medicare Part D sponsors, industry, and other interested parties to attend one of two webinars during which CMS will present the results of a study on beneficiary access to pharmacies offering preferred cost sharing.

CMS announced in the CY2015 Call Letter various concerns surrounding beneficiary access to retail network pharmacies offering preferred cost sharing (see <http://www.cms.gov/Medicare/Health-Plans/MedicareAdvtgSpecRateStats/downloads/Announcement2015.pdf> pages 111-112). The CY2015 Call Letter indicated that to further analyze this issue CMS had awarded a contract to study this topic.

CMS has completed this study and will present its findings to the industry and other interested parties. The results will be presented during two webinars, each with a maximum capacity of 1,000 participants. CMS encourages interested parties to attend one of the two webinars. If the first webinar reaches maximum capacity, we encourage you to attend the second webinar. Each webinar will start with a presentation highlighting the study findings and will conclude with a question and answer session. Each webinar will cover the same material.
