(Comments due December 2, 2014)**

This is to notify all Medicare Part D plans and Medicare Hospice Providers that on October 3, 2014, the Centers for Medicare & Medicaid Services (CMS) announced an opportunity to comment on CMS-10538 (Prior Authorization Form for Beneficiaries Enrolled in Hospice). In response to CMS' recent guidance, industry commenters recommended that we require the use of a standard PA form to facilitate coordination between Part D sponsors, hospices and prescribers. The industry, in conjunction with the National Council for Prescription Drug Programs (NCPDP), has developed a standard form that with minor modifications will meet the program needs. The revised format is now published in accordance with the Paperwork Reduction Act (PRA) requirements.
