Subject: CMS is Seeking PDP Sponsor Volunteers to Assist in Shaping Access to Medicare Claims Data

CMS is seeking PDP Sponsor volunteers who are interested in helping shape the requirements, design, implementation, and rollout of access to Medicare Parts A and B claims data. In alignment with CMS' Final Rule to implement section 50354 of the Bipartisan Budget Act of 2018, CMS will provide PDP Sponsors with the option to submit a request for Medicare claims data beginning in 2020. PDP Sponsor volunteers will participate in user research to ensure your needs are considered in the electronic system CMS is developing to deliver Medicare Parts A and B claims data.

The volunteer interviews will last no longer than one hour, during which time you will talk with a user researcher about your data needs. We may also ask for a follow-up meeting to gather additional feedback on the planned design and rollout strategy so we are able to ensure a successful launch and adoption of the system.

If you are interested in participating, please email us at pdp-data@cms.hhs.gov, and we will reach out for availability for the interview.

Thank you for your time and consideration.

Sincerely,
CMS PDP Sponsor Research Team
