SUBJECT: New Medicare Card Medicare Beneficiary
Identifier (MBI) Adoption Deadline Reminder

DATE: November 27, 2019

New Medicare Card: Transition Period Ends in Less Than 1 Month

Starting **January 1, 2020**, all Medicare Advantage (MA) and Prescription Drug Plans (PDPs) must use the Medicare Beneficiary Identifier (MBI). Many plans have already transitioned to the MBI for Medicare transactions.

CMS has previously provided numerous plan communications regarding the necessary system and process changes to accept MBIs. If plans need additional support please contact your Account Manager for assistance.

Until the transition period ends on December 31, 2019, CMS will continue to urge plans to do the following:

- Ensure you're using MBIs in the Batch Eligibility Query (BEQ)
- Encourage your providers to protect their patients' identities by using the new MBI now, even before the transition period ends
- Encourage your providers to give handouts to direct patients who did not get a card to visit MyMedicare.gov or call 1-800-MEDICARE

CMS is committed to ensuring all MA and PDPs are prepared and meet **the January 1, 2020 MBI usage deadline.**

If you have any questions regarding the new MBI, please speak to your account manager on how CMS can provide further assistance.
