MEMORANDUM

Date: April 11, 2006

To: All Part D Sponsors

From: Cynthia Tudor, Acting Director, Medicare Drug Benefit Group

Subject: Contract Year 2007 Formulary Submissions

As a reminder, the 2007 Formulary submission period ends on Monday, April 17, 2006 at 5pm ET. We do not anticipate extending the submission deadline as this will jeopardize the initial formulary review period that must occur prior to the bid submission period. All Part D sponsors wishing to offer 2007 benefits are required to upload and validate a new formulary file by this deadline. We strongly encourage organizations to begin submitting formulary files to HPMS in order to test connectivity and formulary flat file structure. In order to create a 2007 formulary submission, please utilize the "Submit New Formulary" option in the CY2007 HPMS formulary module.

CMS has published a formulary reference NDC file that must be utilized when building 2007 formulary submissions. This file was last updated and distributed on March 27, 2006. The formulary reference NDC file is a tool for assisting with the 2007 formulary submission. It is not intended to serve as a Part D drug coverage list for 2006 or 2007. If you should encounter a drug that is missing from the formulary reference NDC file, please communicate the specifics of your findings to Kady Flannery at kathleen.flannery@cms.hhs.gov.

Since the last update to the formulary reference NDC file, we have identified Part D drugs that were inadvertently excluded from previous versions of the file. The proxy NDCs in Appendix A have been added and will be available for upload beginning today.
