Subject: Medicare Plan Finder Pricing Data Files Submission Reminder

As you are aware, every plan is required to submit their initial CY2012 Medicare Plan Finder (MPF) pricing data files during the September 12-13, 2011 submission window. We wish to remind plans that you may only include pharmacies in your Pharmacy Cost (PC) file that are currently contracted for your CY2012 network. You may not base your submission on your CY2011 network. This also applies to each subsequent data submission.

If we discover that you have submitted information on pharmacies with which you do not currently have contracts for CY2012 and these data are not corrected in time, we will consider your submission to be false and misleading. Your plan will be suppressed from the Plan Finder website and you may be subject to a compliance action.
