

## **HPMS E-Mail**

**Date:** May 4, 2023

**Subject:** CY2024 Bid-Related Updates in HPMS - 5/3/2023

CMS released the following bid-related updates on Wednesday, May 3:

### **Plan Benefit Package:**

- Combined supplemental groups will appear in an “In Progress” status when only one benefit has been copied from the prior year.
- The display of prior authorization and referral questions has been updated in the PBP data report.
- Deleted notes were removed from appearing in the Plan Level Cost Share Section of the PBP data report.
- LIS reduction levels can be selected for VBID Additional Benefit Packages.
- The following invalid errors have been removed upon saving the Pre-ICL page in the Rx section:
  - preICLMailOrderMinimumCopayment
  - preIClLongTermCareMinimumCopayment

### **JSON Updates:**

- A fix deployed on the evening of May 2 inadvertently caused certain Part D cost sharing data to drop from the JSON report. This issue was corrected.
- The JSON component "not OneToggleQuestionComponent.bdOneToggleQuestion" was removed from service category 13b in the Benefit Detail section of the JSON report.
