Subject: Updates to the HPMS Supplemental Listserv Subscription Process

CMS has implemented some minor technical updates to the process for subscribing to the HPMS supplemental listserv.

Interested individuals may access the “Subscribe to the Listserv” button on the HPMS public landing page at <https://hpms.cms.gov>. Rather than re-direct the user to a survey form on www.cms.gov, the button now presents a pop-up form that is modeled after the prior version. A new subscriber will complete the form as directed. An existing subscriber will be presented with their current listserv subscriptions and have the ability to add, edit, and now delete options. Whereas CMS had been updating the supplemental listserv on a weekly basis, the new process updates the listserv in real-time.

As a reminder, active HPMS users are automatically subscribed to the appropriate listserv, so those individuals do not need to join the supplemental listserv.

Please direct questions on this email to the HPMS Help Desk at either hpms@cms.hhs.gov or 1-800-220-2028.
