**SUBJECT: HPMS Risk Adjustment Overpayment Reporting (RAOR) Module Update**

CMS will release an update to the “Risk Adjustment Overpayment Reporting” module (RAOR) in HPMS on July 18, 2023. This module is used by risk adjustment data submitters to report plan-identified overpayments under 1128J(d) of the Social Security Act. The update includes a change in the format used to collect existing information by adding fields to aid in the creation and editing of overpayment reports.

A Computer Based Training that demonstrates how to use the updated RAOR module can be accessed using the following path:

[www.csscooperations.com](http://www.csscooperations.com) > Instructional Videos > Other Topics > Risk Adjustment Overpayment Reporting CBT

Step-by-step instructions for reporting in the RAOR module are provided in the Quick Reference Guide: Risk Adjustment Overpayment Reporting, available in the Documentation section of the module.

To access the RAOR module, follow this path:

HPMS Home Page > Risk Adjustment > Risk Adjustment Overpayment Reporting

Questions related to the RAOR module should be sent to [RiskAdjustmentPolicy@cms.hhs.gov](mailto:RiskAdjustmentPolicy@cms.hhs.gov). Please use ‘HPMS Risk Adjustment Overpayment Reporting (RAOR) Module Update’ as the subject line.
