

STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER / SUPPLIER / CLIA IDENTIFICATION NUMBER 056301	(X2) MULTIPLE CONSTRUCTION A. BUILDING _____ B. WING _____	(X3) DATE SURVEY COMPLETED 09/02/2020
NAME OF PROVIDER OF SUPPLIER HY-LOND HEALTH CARE CENTER - MODESTO		STREET ADDRESS, CITY, STATE, ZIP 1900 COFFEE ROAD MODESTO, CA 95355	
For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.			
(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (EACH DEFICIENCY MUST BE PRECEDED BY FULL REGULATORY OR LSC IDENTIFYING INFORMATION)		
F 0880 Level of harm - Minimal harm or potential for actual harm Residents Affected - Many	<p>Provide and implement an infection prevention and control program. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** Based on observation, interview, and record review, the facility failed to maintain an effective infection control and prevention program for the prevention of Coronavirus (COVID-19 - an infectious disease caused by severe acute respiratory syndrome) transmission when: 1. Ten of 10 residents room doors were left opened (room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER], room [ROOM NUMBER] and room [ROOM NUMBER]) in the COVID 19 Unit (an isolation unit for residents' positive for COVID-19). 2. The facility did not ensure the Infection Preventionist (IP-professional who makes sure health care workers and residents on infection control best practices to prevent the spread of infections) had had the certification and qualifications for the IP position. 3. A used gown from the COVID-19 unit was found on top of the table near the clean Personal Protective Equipment (PPE) cart station of the COVID-19 unit and a pair of potentially contaminated eye goggles were found on top of the clean PPE cart outside the COVID-19 unit. These failures had the potential to result in the spread and transmission of COVID-19 infection to residents and staff. Findings: 1. During a concurrent observation of the COVID-19 unit and interview on 9/2/2020, at 10:39 a.m., in the facility's COVID-19 unit with Licensed Vocational Nurse (LVN) 1, the doors to Rooms 11, 12, 14, 15, 16, 17, 19, 20, 22 and 24 was left open. LVN 1 stated, The rooms in the COVID-19 unit should be closed as an added precaution. LVN 1 stated it was important to keep rooms closed in the COVID-19 unit to prevent cross contamination and limit the spread of COVID-19. During an interview on 9/2/2020, at 1:39 p.m., with the Infection Preventionist (IP), the IP stated the doors on all transmission based precaution rooms including those in the Red Zone (COVID-19 unit) should always be kept closed unless staff or residents are entering or exiting. During a review of Professional Reference from https://www.cdc.gov, titled, Preparing for COVID-19 in Nursing Homes, undated, indicated, . Recommended infection prevention and control (IPC) practices when caring for a patient with suspected or confirmed [DIAGNOSES REDACTED]-CoV-2 infection . Patient Placement .place a patient with suspected or confirmed [DIAGNOSES REDACTED]-CoV-2 infection in a single-person room with the door closed . 2. During a concurrent interview and record review on 9/2/2020, at 1:39 p.m., with the IP, the IP reviewed his IP certification and stated he had not taken the post-test for the required CDC Nursing Home Infection Preventionist training. The IP stated he was aware he had not taken the post-test and needed to complete training to be qualified for the position of IP. During a review of Professional Reference from https://www.cms.gov, titled, Specialized Infection Prevention and Control Training for Nursing Home Staff dated 3/11/19, indicated, . Specialized Training for Infection Prevention and Control . CMS and the CDC collaborated on the development of a free online training course in infection prevention and control for nursing home staff. The course includes information about the core activities of an infection prevention and control program, with a detailed explanation of recommended practices to prevent pathogen transmission and reduce health-care associated infections and antibiotic resistance in nursing homes . Completion of this course will provide specialized training in infection prevention and control . The content of the training covers the following topics . Infection and Prevention Control Program Overview . Infection Preventionist responsibilities . Infection Surveillance . Outbreaks . Principles of Standard Precautions . Principles of Transmission-Based Precautions . Hand Hygiene . Respiratory Hygiene and Cough Etiquette . 3. During a concurrent observation and interview on 9/2/2020, at 2:40 p.m., outside the COVID-19 unit, there was a used reusable yellow gown on top of the table by the entrance of the COVID-19 unit. There was a potentially contaminated pair of eye goggles on top of the ppe cart outside the COVID-19 unit. The IP stated used gowns should be discarded before leaving the COVID-19-unit and should not be placed on top of the table. The IP stated the eye goggles should not be placed on top of the PPE cart outside the COVID-19 unit because the goggles could potentially contaminate the cart and items contained in the cart. The IP stated staff assigned to the COVID-19 unit should have placed their eye goggles in a brown paper bag before taking their breaks and sanitize them after removing to prevent the spread of infection and cross contamination. During a review of the facility's document titled, Competency Check- Doffing Non-Tie Reusable Gowns . Doffing Goggles ., undated, indicated, . 11. Hang the gown on the designated hook with the outside of the gown facing the wall . Goggles . 6. Label bag with your name and place in designated location . If it is the end of your shift, clean goggles or face shield according to Cleaning Face Shields and Goggles Competency . During a review of Professional Reference from https://www.cdc.gov, titled, Using Personal Protective Equipment dated 8/19/2020, indicated, . How to Take Off (Doff) PPE Gear . 2. Remove Gown. Untie all ties . Dispose (PPE) in trash receptacle .</p>
