Dear Moldx members

We are pleased to submit a new LCD application for our HDPCR multi-gene molecular profiling assay, along with two supporting peer-reviewed publications (and a tech sheet with assay coverage details).

We thank you for your guidance and recommendation to submit for a new LCD for this technology. Please note that we understand that separate Technical Assessments will need to be completed by the CLIA labs that are validating this as a test for clinical production.

We look forward to hearing from you.

Best Regards

Padma
