

Medicare Coverage Database

Latest Site Updates – September 2025

New functionality has been incorporated into the CMS Medicare Coverage Database (MCD). These changes became effective 09/22/2025:

Downloads:

1. Corrected the downloads logic so that Retired document versions no longer display in the Current LCD and Article files. Only the latest version of the document is included in the downloads files, and this could be an In Effect, Future Effective, or Retired version. User instructions have been updated accordingly.

Help & Resources:

2. The Medicare Learning Network (MLN) educational tool, "How to Use the Medicare Coverage Database," is no longer available on CMS.gov. As a result, the link to that tool has been removed from the How To Library tile on the Help & Resources page.
