

New functionality has been incorporated into the CMS Medicare Coverage Database (MCD). These changes are effective 06/06/2018:

Entire MCD:

- Removed any references to “Draft LCDs” and updated terminology to reflect “Proposed LCD”.
- Removed the “Print Selected” button from the Results Pages in multiple locations.

Indexes:

- Updated the Local Coverage Index Result pages with document counts for each type of document available.
- Updated the Local Coverage Determination (LCD) Index Results pages to display an explanation of what the paper clip icon represents in the results list.

Basket:

- Removed the “Print Basket” Button.

Downloads:

- Under “Additional Information” updated the color of the section header text to stand out more on the page.

Page Help:

- Updated the “Keyword Search” description to display all of the fields that are searched when the function is used on the Advanced Search tab.
- Updated the content for each Page Help that is available throughout the MCD for consistency and accuracy.
