

## **Medicare Coverage Database Latest Site Updates – May 2026**

New functionality has been incorporated into the CMS Medicare Coverage Database (MCD). These changes became effective 05/14/2026:

### **Search:**

1. Added “recent searches” feature to the Search page. Click in the Search box without typing to see and rerun your most recent searches.

### **Basket:**

2. Updated the View button to take users to the latest version available (even if it is future effective) rather than the currently in effect version.

### **Reports:**

3. Removed the word "Only" in reference to the Lab NCDs Report. This is a display change only to the report filters and does not impact the report functionality.
