

## Fact Sheet

### Part D Late Enrollment Penalty Reconsideration Appeals Data – Q3 2024

A Late Enrollment Penalty (LEP) appeal is the process by which an individual enrolled in a Medicare prescription drug plan (enrollee) may challenge a plan's determination that an LEP should be assessed. Appeals begin with a request by an enrollee (or his or her representative) for a reconsideration of the plan's decision to assess an LEP. If, upon reconsideration, the plan upholds its decision, the enrollee may request a reconsideration by the Part D Independent Review Entity, which is also called the Part D Qualified Independent Contractor (Part D QIC). Under Medicare regulations, the Part D QIC decision is final and not subject to further appeal.

The following data summarizes and highlights some of the key data on reconsiderations during the 20th year (July 1, 2024 – September 30, 2024) of the Medicare prescription drug benefit program.

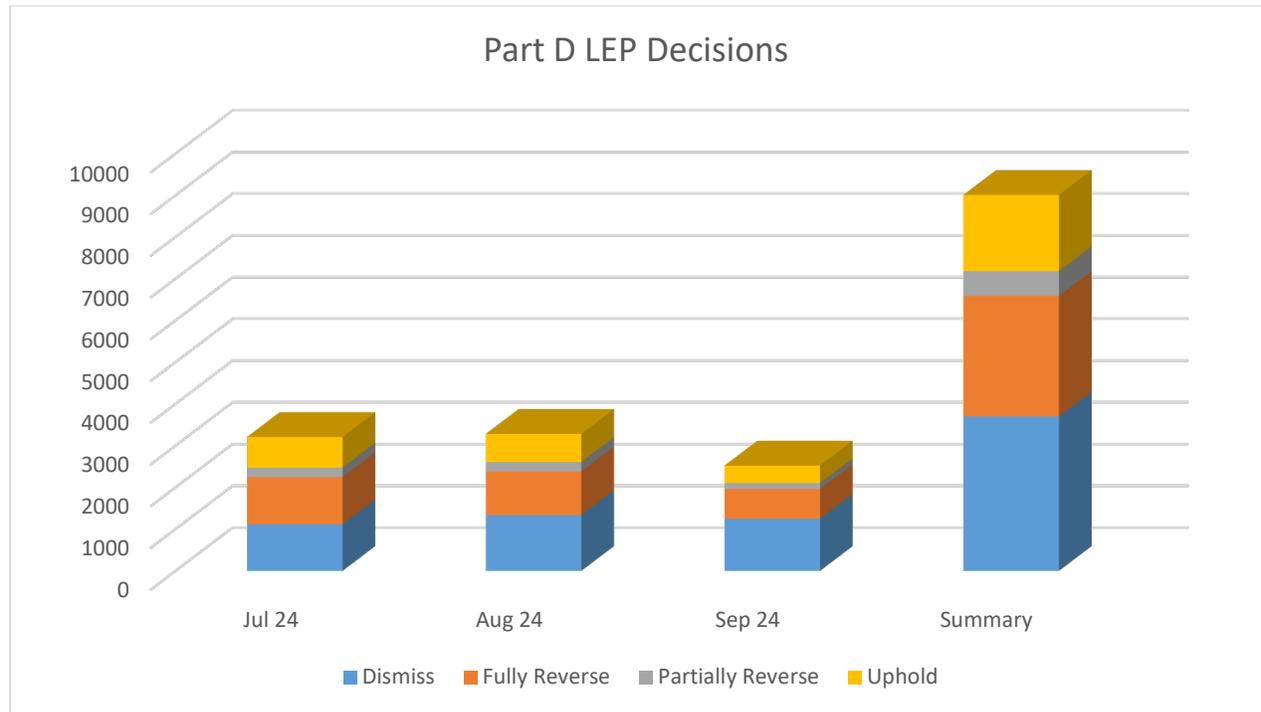

### Reconsideration Volume
