

Appendix E

Part B Therapy Users CY 2002:

Top 5% Therapy Users Based Upon
Per-Beneficiary Annual Expenditures by
Therapy Type

Key to Appendix E:

The tables in Appendix E describe the five percent of therapy users that generated the highest annual (per-beneficiary) expenditures for Part B therapy services in CY 2002. They are reported by age, gender and state of residence during the first therapy encounter of individual therapy users.

The “Top 5% Users” column values are the total number of individual therapy users with the highest annual (per-beneficiary) expenditures for the type of therapy (or combination of therapies) represented in the columns.

The “Total” rows indicate the total number of high annual (per-beneficiary) expenditure therapy users representing the 95th percentile and above. The subsequent rows represent the number of high expenditure therapy users within each age, gender, or state subset.

The columns labeled “Percentage of Top Users....” indicate the distribution of the top five percent of therapy users within the age, gender, and state variables. Values higher than 5.0% suggest demographic variables with higher probability of being among the highest expenditure users.

Appendix E-Table 1 Age of Top 5% Therapy Users Based upon Per-Beneficiary Annual Expenditures

Age Group	Top 5% Users All Therapies (N)	Top 5% Users PT (N)	Top 5% Users OT (N)	Top 5% Users SLP (N)	Top 5% Users PT/SLP (N)	Percent of Top Users of All Therapies Within Age Group	Percent of Top Users of PT Within Age Group	Percent of Top Users of OT Within Age Group	Percent of Top Users of SLP Within Age Group	Percent of Top Users of PT/SLP Within Age Group
Total	187,436	164,923	37,282	18,399	175,250	5.0%	5.0%	5.0%	5.0%	5.0%
<65	20,114	19,042	7,123	1,843	19,636	4.2%	4.4%	8.3%	5.6%	4.4%
