

Appendix T – Claim Therapy HCPCS* Frequency Tables (by Institutional Provider Revenue Center)

* Per-calendar year outpatient therapy HCPCS ranked by frequency of claim
HCPCS procedures billed, regardless of payment status.

Note: Discussion of these tables is located in section 5.7.3 of this report. Also, see Appendix K for HCPCS descriptors.

Note: Lines with HCPCS that were contained in therapy revenue centers (042x, 043x, and 044x) were presumed to have been furnished by or under the supervision of qualified therapists and were considered outpatient therapy service in this study. Any line that contained a HCPCS procedure code that was not on the 'Always Therapy HCPCS' list (see Appendix K) was labeled 'Not Always Therapy' in the following tables. Claim lines in the therapy revenue centers that did not contain a HCPCS code were included, and were labeled 'No Code' in the tables below (line HCPCS for outpatient therapy services for institutional providers were not required until a transition started in April 1998).
