

## Appendix U – Therapy Payments to Chiropractic\* Tables

*\* As noted in Appendix B, Chiropractic (specialty #35) may not be paid for outpatient therapy services per 42CFR410.22(b)(2) and Section 1861(r)(5) of the Act. However, this utilization report was constructed to identify any outpatient therapy services furnished to Medicare beneficiaries, in order to identify patterns of service delivery and potential program vulnerabilities. Chiropractic can furnish and be paid by Medicare for chiropractic procedures; however, outpatient therapy services submitted on a chiropractic claim are not covered under Medicare. Preliminary analysis of the data contained in Appendix B indicated that there were a significant number of chiropractic specialty providers submitting claims containing 'always therapy' HCPCS to Medicare. Since this utilization report contains information on all providers that submitted claims containing outpatient therapy codes regardless of payment status, further analysis was warranted to identify if Medicare outpatient therapy payments were improperly distributed to chiropractic. The following tables summarize the results.*

*Note: Discussion of these tables is located in section 5.3.5 of this report.*

### U- 1: 1998 Medicare Part B Therapy Payments to Chiropractic Specialty by Therapy HCPCS Procedure

Rank by Billed HCPCS Unit Frequency	HCPCS Code	Total HCPCS Unit Count	Submitted Charge	Total Therapy Payment
1	97014	1,139,327	\$19,694,908	\$0
2	97035	547,460	\$9,352,983	\$0
