Report a Case

To report a case, you will be required to provide the following information: Medicare Beneficiary's Last Name, Medicare Number, Date of Birth, Date of Accident/Incident, and identify the type of case being reported (Liability, No-Fault, or Workers' Compensation).

Please Note: Medicare will not release information regarding this case without proper authorization from the beneficiary. To ensure receipt of recovery related correspondence, you will need to submit a signed Consent to Release or Proof of Representation document from the beneficiary. You will be able to submit this information later in this process.

A case should only be reported if ongoing responsibility for medicals (ORM) has not been accepted for the case and there is a pending settlement, but settlement has not yet been reached. Note: ORM refers to the Insurer's responsibility to pay, on an ongoing basis, for the injured party's (the Medicare beneficiary's) "medicals" (medical care) associated with a claim.

If your case is related to exposure to an environmental hazard or ingestion of a particular substance, or an issue with an implanted medical device, the case should not be reported on the MSPRP. Please mail/fax information regarding this case to:
