Slide 4 of 54 - PAID Act

PAID Act

The Medicare Secondary Payer (MSP) policy is designed to ensure that the Medicare Program does not pay for healthcare expenses for which another entity is legally responsible. To aid settling parties in determining this information, Congress has enacted the Provide Accurate Information Directly Act also known as the PAID Act requiring that CMS provide Non-Group Health Plans with a Medicare beneficiary's Part C and Part D enrollment information for the past 3 years.

This information will be provided both online and offline in the NGHP Query Response File. Additionally, CMS has requested that this solution also include the most recent Part A and Part B Entitlement dates.

Note: The S111/MRA application RRE Actions links will now include the “Beneficiary Lookup” as an available action for DDE reporters.

Additionally, as of July 2023, RREs will be notified when another source has updated their submitted records, RREs may now opt-in via the Section 111 Coordination of Benefits Secure Website (COBSW) application to receive a monthly NGHP Unsolicited Response File. This will provide key information about updates to ORM records originally submitted in the last 12 months and allow RREs to either update their own internal data or contact the BCRC for a correction.

The modifier type codes CEM (Employer/Other Plan Sponsor Name), DSA (Name of the Voluntary Data Sharing Agreement (VDSA) entity), and PRV (From a Provider) will not be used in the NGHP Unsolicited Response File and have been removed from the list.

Note: July 12, 2023 - Notice Regarding the Receipt of Empty (Header & Trailer Record Only) Non-Group Health Plan (NGHP) Unsolicited Response Files Questions have been received from NGHP Responsible

Reporting Entities (RREs) regarding receipt of empty (header and trailer record only) Unsolicited Response Files. Please be aware that a file will be transmitted regardless of record count. This means that an RRE that has opted in to receive the Unsolicited Response File will always receive a file that includes any updates made in the last 30 days. If there are no records updated by an outside source that are linked to that RRE ID in that timeframe, the Unsolicited Response File will be empty. Please note that the Non-Group Health Plan User Guide will also be updated to clarify the receipt of empty files.

 - Allows users to provide and save partial information for a claim report if they do not have all of the information available to complete the claim
- DDE claims can be saved for up to 30 calendar days
 - An incomplete claim must be completed and submitted or it will be deleted

Slide notes

In DDE, Save & Exit allows a user to provide and save partial information for a claim report if they do not have all of the information readily available to submit the claim.

These claims can be saved for up to 30 calendar days. Before the end of the 30-day window, the incomplete claim (i.e., the Saved (Not Submitted) claim) must be completed and submitted or it will be deleted from the system on the 31st day.

DDE Update Action

Slide 23 of 54 - When to Submit an Update

When to Submit an Update

- For claim reports that received an SP Disposition Code
- For open ORM claims which previously received 03 Disposition Code when the injured party becomes covered by Medicare
- To modify information critical to Medicare claims payment and recovery
- Required if **critical** fields are modified
 - ICD Diagnosis Codes
 - TIN
 - TPOC Date(s) and/or TPOC Amount(s)
 - Claimant Information
 - ORM Termination Date
- Note: When data in **key** data field changes, you will not submit an update
 - Previously accepted claim report must be deleted
 - New claim report must be added with corrected information

Slide notes

An update should be submitted for claim reports that received an SP Disposition Code once the claim has been corrected, for open Ongoing Responsibility for Medicals (ORM) claims which previously received a 03 Disposition Code (i.e., claim report for individual matched to a Medicare beneficiary but outside Medicare coverage period), when the injured party becomes covered by Medicare; and, to modify information critical for use by Medicare in its claims payment and recovery processes.

If information in a critical data field changes on any previously submitted and accepted claim report that received a 01 or 02 disposition, you must modify the claim report immediately.

The following are critical data fields: ICD (International Classification of Diseases) Diagnosis Codes, TIN (Tax Identification Number), TPOC (Total Payment Obligation to Claimant) Date(s) and/or TPOC Amount(s), Claimant Information, and ORM Termination Date. You are not required to send updated information for other fields.

For additional information on Disposition or Error Codes, please refer to the NGHP User Guide.

Please note: When data in one or more of the key fields that are used to uniquely identify claims on a previously accepted claim report needs to be corrected, you will not update the claim.

In this case, the previously accepted claim report must be deleted, and a new claim must be added with the corrected information.

Once the DCN link is selected, the Claim Summary page will display a detailed view of all information that was previously entered for the selected claim report. A section of this page is displayed here.

You may not edit the Injured Party Information because these fields are considered key data fields.

If data needs to be changed for any of these fields, delete the original claim report and add a New Claim report with the corrected information.

You may edit information on all other pages with the exception of the Insurance Type and CMS Date of Injury fields.

To begin the edit process, click Edit next to the Injury section. This will return you to the Injury Information page.

At the bottom of the form, there are three buttons: "Submit Claim", "Cancel", "Save", and "Save & Exit".

Slide notes

When you have returned to the Claim Summary page, verify that all updates have been made and then scroll to the bottom of the Claim Summary page.

If you want to save the claim and submit it at a later time, click Save. To submit the claim, click Submit Claim.

Note: If you click [Cancel], and have no changes pending (i.e., you saved your changes), the system will bring you directly to the Claim Listing page.

If you click Cancel and you have not yet saved your changes, the Cancel Edit page displays. If you click Cancel on this page, the modifications you made will be lost.

Slide 28 of 54 - Claim Submission was Successful

The screenshot displays the 'Claim Entry' page in a web application. At the top, there is a navigation bar with links: 'About', 'CMS Links', 'How To', 'Reference Materials', and 'Contact Us'. A 'Show Help Page' button is located on the right. Below the navigation bar, a breadcrumb trail shows 'Information Detail' > 'Claim'. The main heading is 'Claim Entry', and the timestamp 'August 6, 2024 at 2:37:32 PM' is visible. A status indicator 'Transactions Remaining: 101' is shown on the right. The claim details are as follows:

Claim ID: 123456	Claim Status: Saved Not Submitted
Reporter ID: 60527	Medicare ID: 1AB2C34ED56
Name: JANE DOE	Date Of Birth: 06/23/1943
	Gender: Female

A modal dialog box is centered on the screen with the title 'Claim submission was successful.' It contains the text 'The document control number (DCN) for this transaction is: 07498' and two buttons: 'Go To Claim Listing' and 'Go to RRE Information Detail'.

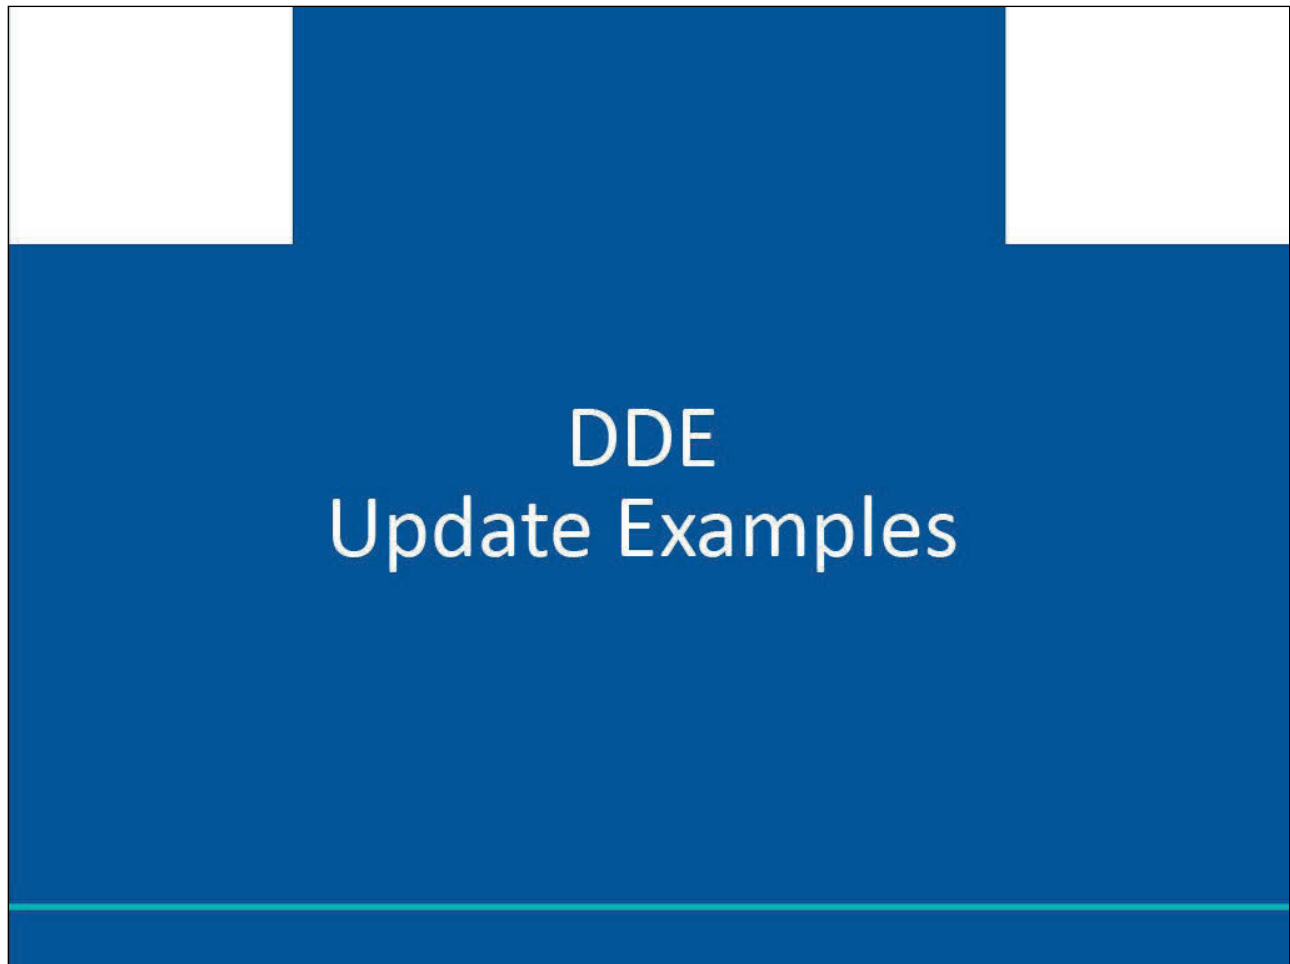

The background page shows a list of sections: 'Injury Information', 'ORM and TPOC Information', 'Insurance Information', 'Representative Information', 'Claimant and Claimant Representative Listing', and 'Claim Summary'. The 'Claim Summary' section is expanded, showing a note: 'Please review your claim information. If you need to change any information, select the section name above for the information you wish to change and then proceed through the remaining sections back to the "Claim Summary" to submit. You may want to print this page for your records.'

Slide notes

Once the claim has been submitted, the system will display the “Claim submission was successful” message.

Retain the Document Control Number (DCN) for your records. The DCN will be helpful if you need to search for the claim at a later time. Click Go To Claim Listing to return to the Claim Listing page or click Go to RRE Information Detail to return to the RRE Information Detail page.

 - Click [Edit] next to the page that requires the correction
 - Advance to any page that needs corrections
 - Once the revision has been made, click [Save] to save the changes and then Continue to navigate back to the Claim Summary page

Slide notes

Let's say you submit a claim report that processes with an SP Disposition. Since the claim report was not accepted due to errors, you must correct and re-submit it.

To submit the required update, go to the Claim Listing page and click the Latest DCN link for the specific claim report. When the Claim Summary page displays, click Edit for the page that requires a correction.

The selected page will appear with all fields open for editing except for the Insurance Type and Date of Injury.

Once the correction has been made, click Save to save the changes and then click Continue to navigate back to the Claim Summary page.

Slide 32 of 54 - ORM and TPOC Information

The screenshot shows a web form titled "ORM and TPOC Information". At the top, it says "Enter ORM (Ongoing Responsibility for Medicals) and TPOC (Total Payment Obligation of Claimant) information below." Below this is a note: "* Indicates required field".

The form contains three main sections:

- ORM Indicator:** A radio button labeled "Yes" is selected, and a radio button labeled "No" is unselected.
- Is the ORM terminated?:** A radio button labeled "Yes" is selected, and a radio button labeled "No" is unselected.
- ORM Termination Date:** A text box contains the date "06/01/2024".

Below these sections is a note: "There are strict requirements on the types of information that can be entered in the TPOC fields. Please click [here](#) for help."

The TPOC section is a table with three columns: "TPOC Date:", "TPOC Amount(\$):", and "Funding Delayed Beyond TPOC Start Date:". There are five rows of input fields.

	TPOC Date:	TPOC Amount(\$):	Funding Delayed Beyond TPOC Start Date:
1.	05/21/2023	150.00	05/21/2023
2.	05/21/2023	55.00	05/21/2023
3.	mm/dd/yyyy	0000000.00	mm/dd/yyyy
4.	mm/dd/yyyy	0000000.00	mm/dd/yyyy
5.	mm/dd/yyyy	0000000.00	mm/dd/yyyy

At the bottom of the form is a blue button labeled "Continue".

Below the main form area are two expandable sections: "Insurance Information" and "Representative Information", both with downward-pointing arrows.

Slide notes

If the submitted claim report with a 03 Disposition Code did not have ORM, you are required to submit an update only if there is a subsequent TPOC.

From the Claim Summary page for the affected claim report, click the Edit button for the ORM and TPOC Information page.

When the ORM and TPOC Information page displays, add the new TPOC Date and TPOC Amount in the first available TPOC fields.

All other data elements should remain as they were originally submitted, including the ORM Indicator set to No.

Once the data has been entered, click [Save] to save the changes and then click [Next] to navigate back to the Claim Confirmation page where you can either save the claim to submit it at a later time, or you can submit the claim.

Note: Enter the date the ORM ended, if applicable. This field is enabled only if ORM Terminated is set to Yes.

The ORM Termination Date must be greater than the CMS Date of Injury. Future dates are accepted.

Note: To address situations where Responsible Report Entities (RREs) can identify future ORM termination dates based on terms of the insurance contract, RREs can now enter a future Ongoing Responsibility for Medicals (ORM) Termination Date (Field 79) up to 75 years from the current date. Also, to allow submitters to enter Workers' Compensation Medicare Set-Aside Arrangement (WCMSA) information for workers' compensation claims, new fields have been added to the ORM and TPOC Information page (NGHP User Guide Sections 15.3 and 15.7).

Slide 33 of 54 - 03 Disposition Code - ORM Example

03 Disposition Code - ORM Example

- Claim report must be resubmitted at regular intervals
 - Once per quarter until ORM ends to see if the beneficiary became entitled to Medicare
 - From Claim Listing page, click the Latest DCN link for the specific claim report

Slide notes

If the submitted claim report with a 03 Disposition Code did have ORM, you must resubmit the claim at regular intervals, once per quarter until ORM ends, to see if the beneficiary has subsequently become entitled to Medicare, at which point they would receive a 01 Disposition.

To submit the required update, go to the Claim Listing page and click the Latest DCN link for the specific claim report.

Slide notes

DDE Delete Action

Slide 41 of 54 - When to Submit a Delete

When to Submit a Delete

- To remove a Saved (Not Submitted) claim report that was entered in error
- To remove claim information previously accepted but the claim report was submitted in error
- To correct data in one or more key fields used to uniquely identify claims on a previously accepted claim report

Slide notes

The Delete Action should only be used in the following situations:

- To remove a Saved (Not Submitted) claim report that was entered in error;
- To remove claim information that was previously submitted and accepted by the Benefits Coordination & Recovery Center (BCRC) (i.e., the claim report received a 01 or 02 Disposition), but the original claim report was submitted in error (e.g., the claim was not actually settled); and
- To correct data in one or more of the key fields that are used to uniquely identify claims on a previously accepted claim report.

Slide 42 of 54 - Correcting Key Data Fields

Correcting Key Data Fields

- Medicare stores information on claims using key data fields
- If a change is required to a key data field
 - Delete the original claim report
 - Submit a New Claim with corrected data
- Key data fields
 - Injured Party Medicare ID or SSN
 - CMS Date of Incident
 - Plan Insurance Type (Liability, No-Fault, Workers' Compensation)
 - ORM Indicator
- If any other field needs to be corrected or changed
 - Simply update the claim report to modify the non-key field

**Slide notes**

Medicare stores information on claims using key data fields. If you need to change data in any of the following key data fields, you must delete the original claim report and submit a New Claim with the corrected data:

- Injured Party Medicare ID or Social Security Number (SSN),
- CMS Date of Incident,
- Plan Insurance Type (i.e., Liability, No-Fault, Workers' Compensation), and
- ORM Indicator.

If any other field needs to be corrected or changed, do not delete the claim report. Simply update the claim report to modify the non-key field as described previously.

 - Correct a key field

Slide notes

A claim report was submitted for a liability insurance claim with ORM by an RRE. It was accepted with a 01 Disposition Code (i.e., claim accepted and ORM).

Subsequently, the RRE changes the CMS Date of Incident (DOI) in its internal system.

Because the CMS Date of Incident is a key data field, the RRE must delete the previously added claim report and add a new claim report with the correct CMS Date of Incident.

Note: [Delete] should only be used to remove an entire record that was created in error or to correct a key field. The use of the [Delete] button will remove all previously entered data.

Claim Listing

This page lists all of the claims you have entered. To search for a specific claim, enter search values into any or all of the search fields, and click on the **Search** button.

The list may be sorted by selecting the title of the column you wish to sort. Selecting the same column again will reverse the sort order for the column.

The list may be filtered by entering values in the columns you wish to filter. To remove a filter, simply remove the value from the filter row, or select the **Clear** button. Selecting the **Clear** button will remove all filters.

Slide notes

When the Claim Listing page appears, click New Claim to add the new claim report with the corrected CMS Date of Incident.

When entering the data for the New Claim, enter the most current information you have for the Injured Party's Name, Date of Birth, and Gender along with all other required data elements including the new CMS Date of Incident.

When the New Claim is entered, the Transactions Remaining count will be decreased by one.

Each claim report will be processed with the applicable Disposition Code. The original claim report will be marked as deleted on the Claim Listing page and the new claim report will be added with the corrected CMS Date of Incident.

Slide 50 of 54 - Claim Report Added in Error - Example

Claim Report Added in Error - Example

- Claim report with no ORM was accepted with a 02 Disposition Code
 - RRE discovers that the claim is not settled
 - RRE must delete the previously accepted claim report

Slide notes

Let's say a claim report was submitted for a settled liability claim with no ORM and was accepted with a 02 Disposition Code (i.e., claim accepted, no ORM).

Subsequently, the RRE discovers that there is no settlement, judgment, award, or other payment with respect to the claim. Therefore, there is no TPOC, and the claim is not yet reportable.

The RRE must delete the previously accepted claim report.
