

## **APPENDIX 3A**

### **FEASIBILITY TEST VERSION OF THE COCOA DATA SET**

This appendix contains the data collection forms that composed the COCOA data set used during the two-site feasibility test (the forms differ only slightly from those used in the pilot feasibility test). The 12 COCOA forms, which were completed by interdisciplinary team members during the feasibility test, include six discipline-specific forms (Primary Care Provider, Nursing, Social Work, Recreational Therapy, Rehabilitation Therapy, and Dietitian) and six content-specific forms (Intake Form, Home Environment Assessment Form, Participant Satisfaction Questionnaire, Caregiver Satisfaction Questionnaire, End of Life Questionnaire, and Utilization Form). The multi-form approach (rather than including all data items in a single assessment form) was designed to better manage data collection for PACE care providers and to fit more closely with the interdisciplinary assessment approach in place at PACE sites. Based on the experience and information gained during the feasibility test, the data items and forms were revised substantially prior to the subsequent phase of testing, the reliability test. (The version of the data set implemented during the reliability test can be found in Appendix 3B.)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0791. The time required to complete this information collection is estimated to vary from 23 to 25 minutes with an average of 24 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, N2-14-26, Baltimore, Maryland 21244-1850.

Information contained on this form that would permit identification of any individual or establishment has been collected with a guarantee that it will be held in strict confidence, will be used only for purposes stated for this study, and will not be disclosed or released to others without the consent of the individual or establishment. Responses to the collection of the information are voluntary.

**DRAFT COCOA DATA SET  
PRIMARY CARE PROVIDER FORM  
OVERVIEW/PROTOCOL**

**PURPOSE:** The information is being collected as part of a two-site feasibility test for the purpose of testing the feasibility of data collection using the draft core outcome and comprehensive assessment (COCOA) data set for PACE. Proposed data collection protocols will also be tested. The two-site feasibility test will result in the refinement of data items and protocols as appropriate. Findings from this project are intended to guide the anticipated implementation of a national approach for core comprehensive assessment of participants and outcome-based continuous quality improvement (OBCQI), in which PACE sites will collect data that will be used to determine and profile participant outcomes for their site.

**HOW COLLECTED:** This form will be completed by primary care physicians providing direct care to the participant.

**WHEN COLLECTED:** This form will be completed for each participant at one time point during the two-site feasibility test.

Completion of the form should occur within 24 hours of the provider's assessment of the participant (ideally, the form will be completed as part of the participant's routine assessment).

**INSTRUCTIONS:** This form contains items to be completed by the primary care provider (this includes direct response to items and administering items to PACE participants). The primary care provider will complete the items and will record responses directly on the form. The primary care provider should mark the correct response as appropriate or print numbers/answers where requested. All items should be completed unless specifically directed to skip items based on a previous response. The Data Collection Coordinator (DCC) assigned at the site will receive the completed forms from the primary care provider. The DCC will submit completed forms to the Research Center.

**Note:** Some data items in this form are also included in other COCOA forms. The forms in which the item appears are noted in brackets next to each item. For example, item 6 in this form is included both in this form and the Nursing form, as indicated by [PCP, RN] next to the question stem for item 6. The abbreviations for each of the COCOA forms are listed below for quick reference.

Intake = Intake Form; HEA = Home Environment Assessment Form; PCP = Primary Care Provider Form; RN = Nursing Form; REHAB = Rehabilitation Therapy Form; SW = Social Work Form; RT = Recreational Therapy Form; RD = Dietitian Form; PSQ = Participant Satisfaction Form; CSQ = Caregiver Satisfaction Form; EOL = End of Life Form; UTIL = Utilization Form.

9. **Diagnoses and Severity Index:** List each medical diagnosis or problem for which the participant is receiving care and ICD code category (three digits required; five digits optional – no surgical or V-codes) and rate them using the following severity index. (Choose one value that represents the most severe rating appropriate for each diagnosis.) Also indicate for each diagnosis whether it is an acute or chronic condition and if terminal. **[PCP]**

Severity Rating

- 0 - Asymptomatic, no treatment needed at this time  
 1 - Symptoms well controlled with current therapy  
 2 - Symptoms controlled with difficulty, affecting daily functioning; participant needs ongoing monitoring  
 3 - Symptoms poorly controlled, participant needs frequent adjustment in treatment and dose monitoring  
 4 - Symptoms poorly controlled, history of rehospitalizations

Acute or Chronic Condition: For each medical diagnosis listed, indicate if the condition is acute or chronic.

- 0 - Acute  
 1 - Chronic

Terminal Disease: For each medical diagnosis listed, indicate if the condition is terminal.

a) Stage 1: Nonblanchable erythema of intact skin; the heralding of skin ulceration. In darker-pigmented skin, warmth, edema, hardness, or discolored skin may be indicators.	0	1	2	3	4 or more
b) Stage 2: Partial thickness skin loss involving epidermis and/or dermis. The ulcer is superficial and presents clinically as an abrasion, blister, or shallow crater.	0	1	2	3	4 or more
c) Stage 3: Full-thickness skin loss involving damage or necrosis of subcutaneous tissue which may extend down to, but not through, underlying fascia. The ulcer presents clinically as a deep crater with or without undermining of adjacent tissue.	0	1	2	3	4 or more
d) Stage 4: Full-thickness skin loss with extensive destruction, tissue necrosis, or damage to muscle, bone, or supporting structures (e.g., tendon, joint capsule, etc.)	0	1	2	3	4 or more
e) In addition to the above, is there at least one pressure ulcer that cannot be observed due to the presence of eschar or a nonremovable dressing, including casts?

- ☐ 3 - Not healing
- ☐ NA - No observable pressure ulcer

j. Does this participant have a **Stasis Ulcer**?

- ☐ 0 - No [ **Go to Item 34** ]
- ☐ 1 - Yes

k. **Current Number of Observable Stasis Ulcer(s):**

- ☐ 0 - Zero
- ☐ 1 - One
- ☐ 2 - Two
- ☐ 3 - Three
- ☐ 4 - Four or more

l. Does this participant have at least one **Stasis Ulcer that Cannot be Observed** due to the presence of a nonremovable dressing?

- ☐ 0 - No  
☐ 1 - Yes

m. **Status of Most Problematic (Observable) Stasis Ulcer:**

- ☐ 1 - Fully granulating  
☐ 2 - Early/partial granulation  
☐ 3 - Not healing  
☐ NA - No observable stasis ulcer

34. **Vision:** How well the participant sees in good light, with corrective lenses if customarily worn. When a participant has glasses, but does not wear them, base rating on how well he or she sees without glasses. *Assess participant's level of impairment, with corrective device, if used on a regular basis. [PCP, RN]*

- ☐ 0 - *No Impairment* This rating is used for any of the following circumstances:
- Has adequate near and distant vision in all or most situations, in good light; does not complain of visual fatigue or difficulty reading or distinguishing objects.
  - Is able to read newsprint or see fine detail and is able to read a wall clock or see objects at a reasonable distance.
  - Uses a magnifying glass (or non-prescription magnifying glasses) to read, reads without difficulty and has adequate distant vision.
- ☐ 1 - *Partial Impairment* This rating is used for any of the following circumstances:
- Can read and/or see fine detail, but has difficulty with distant vision (i.e., is near-sighted).
  - Has difficulty reading newsprint or seeing fine detail, but is able to see objects at a reasonable distance (i.e., is far-sighted).
  - Has difficulty reading and with distant vision, but sees well enough to get around safely (e.g., can see obstacles in path).
  - Can count fingers at arm's length.
- ☐ 2 - *Total Impairment* This rating is used for any of the following circumstances:
- Cannot see at all, even with corrective device.
  - Sees some light or shadows, but vision is so poor that the participant is not able to see obstacles in his or her path.

Notes (optional): \_\_\_\_\_

35. **Hearing:** How well a participant hears, with a hearing aid if one is customarily worn. When a participant has a hearing aid, but does not usually wear it, base rating on how well he or she hears without the hearing aid. *Assess participant's level of impairment, with hearing aid, if used on a regular basis. [PCP, RN]*

- ☐ 0 - *No Impairment* Hears adequately in most situations (with a hearing aid, if customarily worn).
- ☐ 1 - *Partial Impairment* This rating is used for any of the following circumstances:
- Has difficulty hearing; speaker must raise voice and/or repeat phrases in order to be heard.
  - Hears well in some situations, but not in others.  
Example: Participant hears well in a quiet setting, but has difficulty when there is background noise, e.g., in a room where other conversations are taking place.
  - Hears some voices well, but has difficulty hearing certain voices.
- ☐ 2 - *Total Impairment* This rating is used for any of the following circumstances:
- Cannot hear at all, even with corrective device.
  - Hearing is so poor that the participant does not hear speech, even with repeated efforts by the person speaking.

Notes (optional): \_\_\_\_\_

36a. **Oral Status and Disease Prevention: (Mark all that apply.) [PCP, RN]**

- ☐ 1 - Debris (soft, easily movable substances) present in mouth
- ☐ 2 - Has dentures or removable bridge
- ☐ 3 - Some/all natural teeth lost – does not have or does not use dentures (or partial plates)
- ☐ 4 - Broken, loose, or carious teeth
- ☐ 5 - Inflamed gums (gingiva); swollen or bleeding gums; oral abscesses; ulcers or rashes
- ☐ 6 - Daily cleaning of teeth/dentures or daily mouth care
- ☐ 7 - None of above

Notes (optional): \_\_\_\_\_

b. **Dental Visits:** Has the participant seen the dentist in the last year?

- ☐ 0 - No                      ☐ 1 - Yes

38. **Pain:** If participant has pain in multiple locations, respond to items for the most severe or interfering pain. [PCP, RN]

a. **Pain Interfering with Daily Activities (Provider Response):** In the past week, how often has pain gotten in the way of participant's normal routine? (NOTE: If the participant's level of pain has changed in the past week, answer should be based on the most recent level of pain.)

- ☐ 0 - Participant had no pain during the past week
- ☐ 1 - Pain does not get in the way of normal routine
- ☐ 2 - At times, but not every day
- ☐ 3 - Every day, but not constantly
- ☐ 4 - All of the time
