

Layout for Final CY 2012 Rule Ambulatory Surgical Center (ASC) Payment System

Supplier Specific File

These supplier level data are abstracted from an internal file used to calculate the budget neutrality adjustments for the final CY 2012 ASC Payment System. This file contains data for ASC services billed in CY 2010 that were eligible to receive payment under the revised ASC Payment System. We used these CY 2010 claims, along with CY 2011 payment rates and wage indices and final CY 2012 payment rates and wage indices, to model payment under the CY 2011 ASC Payment System and the final CY 2012 ASC Payment System.

¹In our calculation of aggregate payment to suppliers, we revised 2010 HCPCS codes (where appropriate) to their 2011 and 2012 status and description using an internal 2010-2011 and 2011-2012 HCPCS crosswalk file.

² In past files we created the supplier identifier values by concatenating the carrier number and provider identification number variables. This identifier has now been replaced by the NPI number.

³ Most covered surgical procedures are subject to a 50 percent reduction in the ASC payment for the lower-paying procedure when more than one procedure is performed in a single operative session.
