Additional information:

For a list of the taxonomy codes that correlate with the Medicare physician specialty types, visit <http://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/MedicareProviderSupEnroll/Downloads/TaxonomyCrosswalk.pdf>.

For more information on enrollment eligibility you may contact your Medicare Administrative Contractor by reviewing <http://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/MedicareProviderSupEnroll/Part-D-Prescriber-Enrollment-MAC-List.html> to find their toll-free number.

1 The information provided in this document is a general summary only and is not necessarily exhaustive. We encourage readers to review relevant statutes, regulations and other interpretive materials for a full and accurate statement of Medicare requirements. Additionally this document does not provide guidance on eligibility to order, certify, or prescribe. Generally prescribing authority is determined by state law. Eligibility to enroll to prescribe will be based upon applicable federal and state laws, regulations, and guidance.

² CMS believes this list to be complete. The list includes those specialties that have been identified to date. If you believe a particular specialty is missing, please contact ProviderEnrollment@cms.hhs.gov for clarification.

³ The list includes those specialties that have been identified to date; this is not an exhaustive list. It just serves as an example. If you believe a particular specialty is missing, please contact ProviderEnrollment@cms.hhs.gov for clarification.
