Home Health
Quality Reporting Program Provider Training

Data Submission and Reporting

Presenters: Jen Pettis, R.N., WCC and Julie Ellingson, R.N.

Date: November 17, 2016

Objectives

- Identify strategies for successful Outcome and Assessment Information Set (OASIS) data submission.
- Describe the process to navigate the Certification And Survey Provider Enhanced Reports (CASPER) application.
- Discuss the purpose, location and common errors associated with Final Validation Reports (FVRs).

Objectives

- Identify the top 10 errors associated with OASIS submission.
- Discuss various CASPER and other reports available to home health providers.
- Locate resources available to support providers with data submission.

Tips for Successful OASIS Data Submission

- Important tips to remember before submitting your OASIS records to the Assessment Submission and Processing (ASAP) system:
  - Ensure that you have a CMSNet user ID and password and that the Juniper communication software is correctly installed on your PC.
  - Ensure that you have registered for AND activated your Quality Improvement and Evaluation System (QIES) user ID.

Tips for Successful OASIS Data Submission

- You must utilize data entry software capable of formatting OASIS records in an XML format and exporting files in accordance with CMS' standard record layout specifications.
  - OASIS Data Submission Specifications available on the CMS Web site: https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/OASIS/DataSpecifications.html.
- Ensure that the Facility ID you received when you registered for your QIES user ID is correctly entered into the OASIS data entry software you choose to use.
- Do not attempt the OASIS file submission process if any of the above steps are not complete.

Tips for Successful OASIS Data Submission

- OASIS records are submitted to the QIES ASAP system via the OASIS Submissions system:
  - Link to access the OASIS Submissions system is on the “Welcome to the CMS QIES Systems for Providers” Web page.
- Login and upload file containing OASIS records.

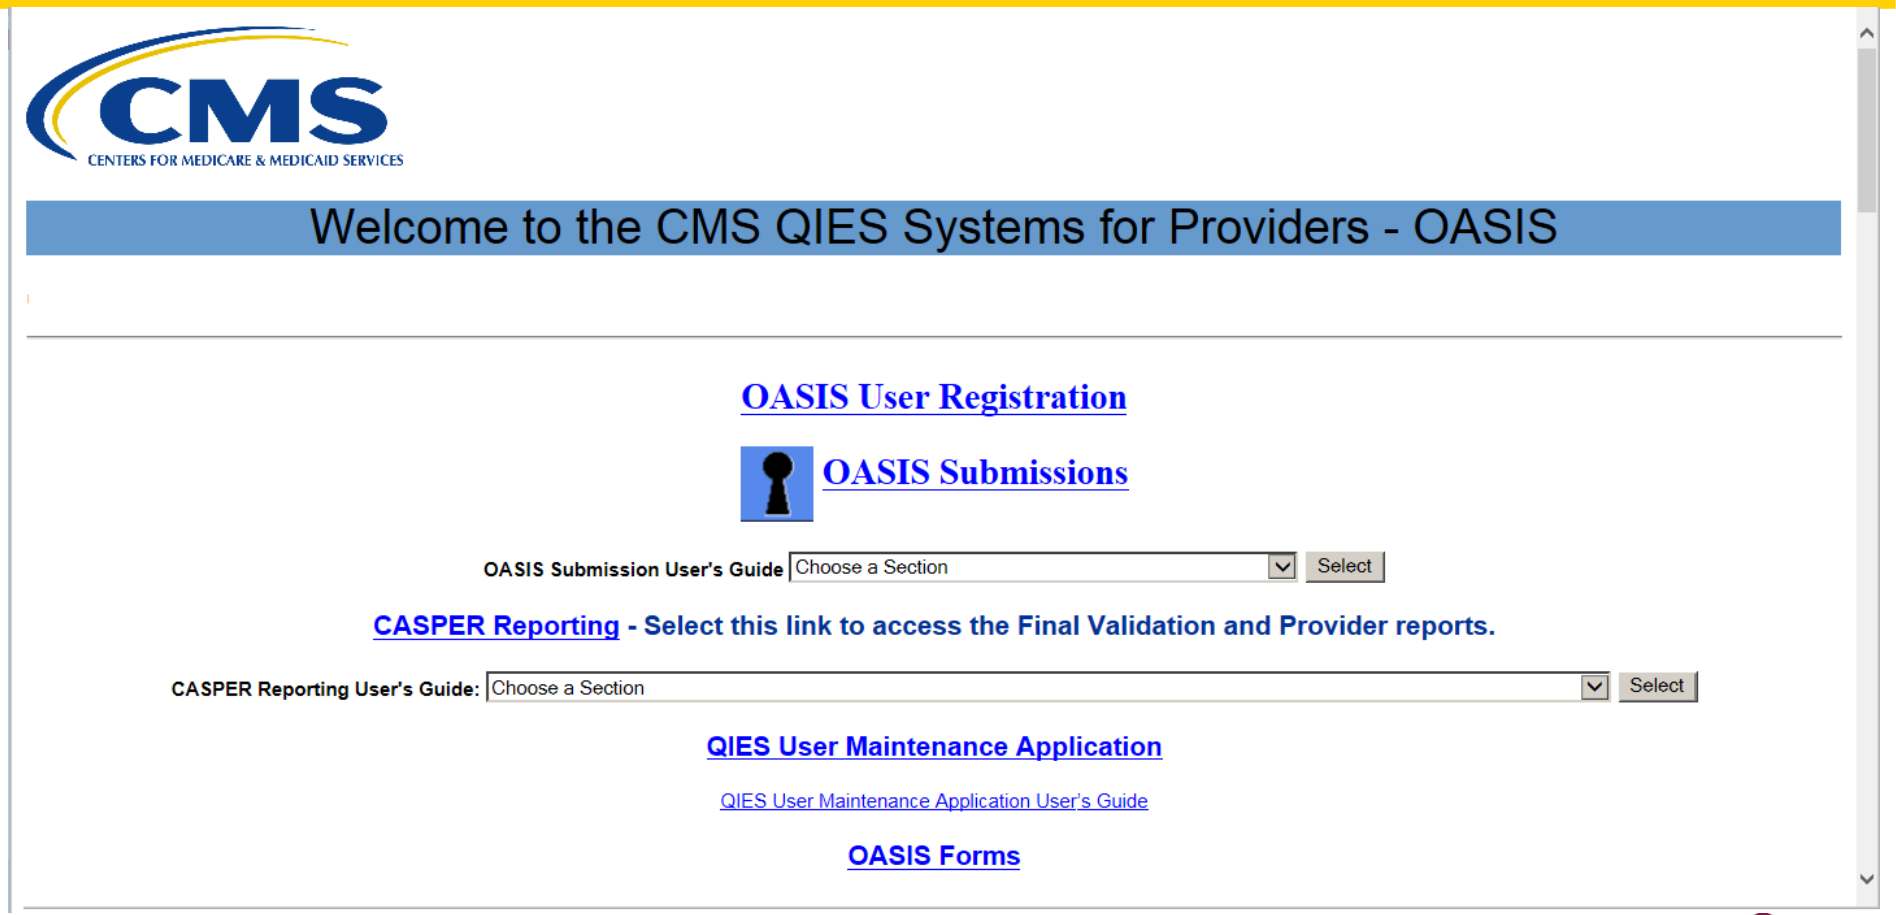
Tips for Successful OASIS Data Submission

- Following upload of the file containing OASIS records:
  - An online initial confirmation message displays. This message includes important information about the submission, including the Submission ID of the file.
  - Print the initial confirmation message to help identify and locate the OASIS Agency Final Validation Report (FVR) in the CASPER Reporting application.

Resources Available to Support Submission

- Refer to the *OASIS Submission User's Guide* for detailed information about submission of OASIS data to the ASAP system.
  - The guide is available for download in the following locations:
    - Welcome to the CMS QIES Systems for Providers Web page.
    - OASIS User Guides and Training page on the QTSO Web site (https://www.qtso.com/hhatrain.html).

CMS QIES Systems for Providers Web Site



Locating Reports in CASPER

- Access the ASAP system-generated FVRs and other reports in the CASPER Reporting application.
  - A link to the CASPER Reporting application is available on the “Welcome to the CMS QIES Systems for Providers - OASIS” Web page.
  - Log into the CASPER Reporting application using your QIES user ID and password.

Final Validation Report

- Created within 24 hours following submission of the zip file that contains OASIS data records.
- Provides feedback about the processing of each XML record included in the zip file submitted to the ASAP system.
- Created for each submission file if the provider in the XML record can be identified.
- If no system-generated FVR is created, this indicates there were severe errors with the zip file or no records could be extracted from the zip file.

Final Validation Report

- FVR is automatically placed in the Validation Report (VR) folder following completion of file processing.
  - Three permanent folders are available on the CASPER Folders page.
    - **My Inbox:** Folder where user-requested home health agency (HHA) reports are stored.
    - **Shared Provider Folder:** Read-only folder into which agency-level automatically generated reports are distributed.
      - Folder named: [State Code] HHA [Facility ID]
    - **Shared Provider VR Folder:** Read-only folder into which ASAP system-generated FVRs are stored.
      - VR Folder named: [State Code] HHA [Facility ID] VR
  - Users who have access to submit data for your agency automatically have access to the VR folder.

Final Validation Report

- Select the VR folder name, and a list of ASAP system-generated FVRs display in the right frame.
- Refer to the initial confirmation message you received after uploading the zip file to the ASAP system. This message contains the Submission ID of the FVR in the VR folder.

Final Validation Report

FVRs are labeled as [Submission Date & Time].[Submission ID]

- Example FVR name: 07012016153029.789541
- Interpreted as:
  - 07012016: Submission date (07/01/2016)
  - 153029: Submission time (3:30:29 pm)
  - 789541: Submission ID

Final Validation Report

- Two ASAP system-generated FVRs are available in the VR folder:
  - Text-formatted report.
    - This report can be identified by the notebook icon that displays adjacent to the FVR name link.
    - Access this user-friendly version of the FVR.
  - XML-formatted report.
    - This report format is intended for use by software vendors.
    - Can be identified by the XML icon displaying adjacent to the FVR name link.

Data Submitted:	01, ^, 1CGKV
Message Number/Severity:	-4820 WARNING
Message:	Invalid HIPPS Values: SUBM_HIPPS_CODE and SUBM_HIPPS_VERSION values should match the system-calculated values.
OASIS Item(s):	M0100_ASSMT_REASON, SUBM_HIPPS_VERSION, CALC_HIPPS_VERSION
Data Submitted:	01, ^, V5115
Message Number/Severity:	-4820 WARNING
Message:	Invalid HIPPS Values: SUBM_HIPPS_CODE and SUBM_HIPPS_VERSION values should match the system-calculated values.

Error Types: Fatal File Errors

- The file is rejected by the QIES ASAP system if the file structure does not meet these requirements.

- Examples of fatal file errors:
  - The file is not a ZIP file.
  - The records in the ZIP file cannot be extracted.
  - The file cannot be read.

- Files that are rejected must be corrected and resubmitted.

Error Types: Fatal Record Errors

- The individual OASIS record is rejected by the QIES ASAP system.
- Examples:
  - Out-of-range responses.
  - Inconsistent relationships between items.
- Rejected records must be corrected and resubmitted.

Types of Errors: Warnings (Non-Fatal Errors)

- Warnings include missing or questionable data of a non-critical nature or item consistency errors of a non-critical nature.

- Examples:
  - Timing errors.
  - Record sequencing errors.

- The provider must evaluate each warning to identify necessary corrective actions.

Time-Related QIES ASAP Requirements

- FVR is automatically deleted from the agency's VR folder after 60 days.
  - You can still request OASIS Submitter FVR using the Submission ID at any time.
- Fatal errors must be addressed and the OASIS records must be resubmitted such that the 30 day submission time frame requirement is met.

Top 10 Errors Returned for OASIS Records

No. 1 Error – 3330: Record Submitted Late

The submission date is more than 30 days after M0090 date on this new (TRANS_TYPE_CD = 1) record.

- Warning message.
- Provider workflow error.
- 1,944,401 OASIS records encountered this error.
- A tracking mechanism is not in place to ensure timely submission of OASIS records.

Top 10 Errors Returned for OASIS Records

No. 2 Error – 915: Patient Information Mismatch

Submitted value(s) for the item(s) listed do not match the values in the QIES ASAP database. If record accepted, the database has been updated.

- Warning message.
- Informational error.
- 1,039,878 OASIS records encountered this error.
- Occurs when submitted agency or patient information is different than the same information for the patient in the national resident table.
- Verify updated information is correct.

Top 10 Errors Returned for OASIS Records

No. 3 Error – 907: Duplicate Assessment

The submitted record is a duplicate of a previously accepted record.

- Fatal error.
- Provider workflow error.
- 396,471 OASIS records encountered this error.
- OASIS record already exists in the QIES ASAP database and should not be resubmitted.
- Compare the record in your software to the record previously accepted by the ASAP system; if data changed, submit a modification record.

Top 10 Errors Returned for OASIS Records

No. 4 Error – 909: Inconsistent Record Sequence

Under CMS sequencing guidelines, the type of assessment in this record does not logically follow the type of assessment in the record received prior to this one.

- Warning message.
- Provider workflow error.
- 370,766 OASIS records encountered this error.
- Submitted OASIS record was not the next expected record for the patient.
- A tracking mechanism is not in place to ensure OASIS records are completed and submitted in a sequential manner.

Top 10 Errors Returned for OASIS Records

No. 5 Error – 4820: Invalid HIPPS Values

SUBM_HIPPS_CODE and SUBM_HIPPS_VERSION values should match the system-calculated values.

- Warning message.
- Software error.
- 214,946 OASIS records encountered this error.
- May need to report this error to the vendor that created your data entry software.

Top 10 Errors Returned for OASIS Records

No. 6 Error – 925: Record Timing Invalid

CMS timing guidelines require recertification follow-up records (**M0100.** Reason for Assessment equals **4**) at least every 60 days (relative to Start of Care date), but no earlier than Day 56 of the follow-up cycle.

- Warning message.
- Provider workflow error.
- 121,774 OASIS records encountered this error.
- A tracking mechanism is not in place to ensure OASIS records are completed according to CMS timing guidelines.

Top 10 Errors Returned for OASIS Records

No. 7 Error – 3320: Inconsistent Dates

If **M0100.** Reason for Assessment is equal to **9,** Discharge from agency, then **M0090.** Date Assessment Completed minus **M0906.** Discharge/Transfer/Death Date should be greater than or equal to 0 days and less than or equal to 2 days.

- Warning message.
- Provider workflow error.
- 119,520 OASIS records encountered this error.
- A tracking mechanism is not in place to ensure OASIS records are completed according to CMS timing guidelines.

Top 10 Errors Returned for OASIS Records

No. 8 Error – 3160: Invalid HHA_AGENCY_ID

The HHA_AGENCY_ID submitted in file does not identify a valid provider in the QIES ASAP System.

- Fatal error.
- Software or user error.
- 78,257 OASIS records encountered this error.
- The HHA_AGENCY_ID must be a system-assigned HHA_AGENCY_ID.
- Software used to create the OASIS records for submission did not conform to data specifications.
- Report this error to the vendor that created your data entry software.

Top 10 Errors Returned for OASIS Records

No. 9 Error – 903: Required Item Missing or Invalid

Based on the OASIS Data Specifications in effect on the effective date of this record, this item is required.

- Fatal error.
- Software error.
- 69,440 OASIS records encountered this error.
- Software used to create the OASIS records for submission did not conform to data specifications.
- Report this error to the vendor that created your data entry software.

Top 10 Errors Returned for OASIS Records

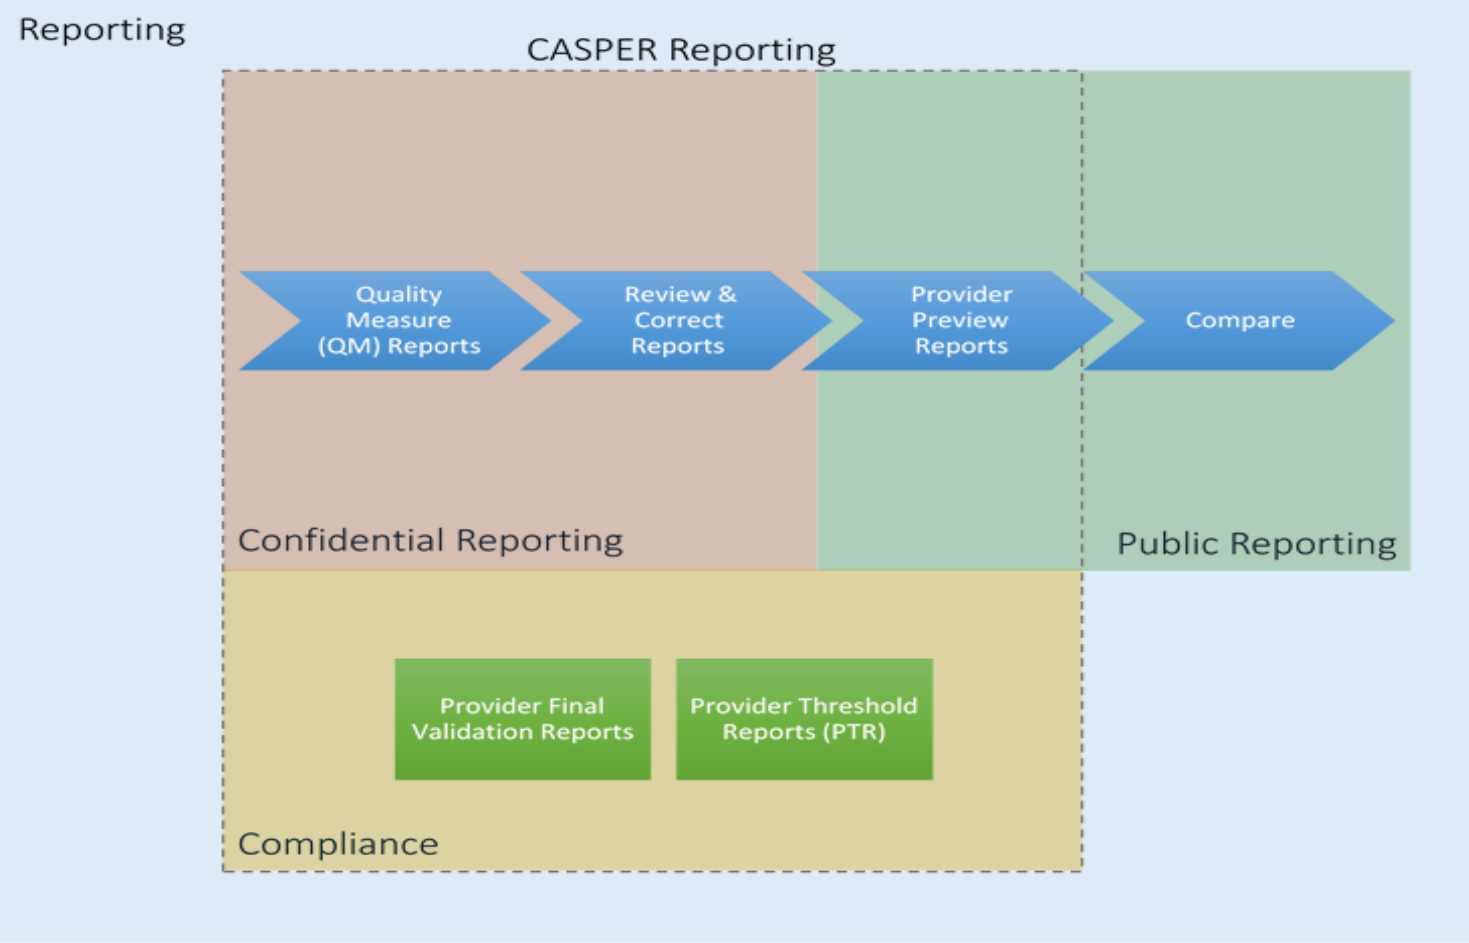
No. 10 Error – 3060: Invalid Value

The value submitted for this item is not an acceptable value.

- Fatal error.
- Software error.
- 45,762 OASIS records encountered this error.
- Software used to create the OASIS records for submission did not conform to data specifications.
- Report this error to the vendor that created your data entry software.

Overview of Quality Reports

Public Reporting Overview Graphic



Overview of Reports

- CASPER:
  - On-Demand Reports:
    - Quality Measure (QM) Reports (agency level and patient level).
    - Review and Correct Reports (new).
  - Distributed Reports (“Folder”):
    - Provider Preview Reports.

Resources

- Refer to the *CASPER Reporting User's Manual* for detailed information.
  - Welcome to the CMS QIES Systems for Providers Web page.
  - The guide is available for download in the following location:
    - OASIS User Guides and Training page on the QTSO Web site (https://www.qtso.com/hhatrain.html).

Overview of Reports

- Public Reporting:
  - Home Health Compare (HHC) Web site.
  - Downloadable data from https://data.medicare.gov.

Additional Reports

- Quality of Patient Care Star Ratings.
  - Quarterly preview of results.
- Quality Assessments Only (QAO) Pay-for-Reporting Reports.
  - Show provider compliance with reporting thresholds.
  - Interim reports quarterly.
  - Annual report aligns with Annual Performance Update (APU) period.

Quality Measure Reports

CASPER QM agency-level and patient-level reports:

- Contain QM information at the agency- and patient-levels for a single reporting period.
- Providers are able to select the data collection end date and obtain aggregate performance data.
- Reports are available on a monthly basis and can be used to determine any data submission errors that may affect QM data.
- The existing reports meet the requirement for “confidential feedback” under the Improving Medicare Post-Acute Care Transformation (IMPACT) Act.

On-Demand Agency-Level Reports

- Risk Adjusted Outcome Report.
- Potentially Avoidable Event Report.
- All Patients' Process Quality Measures Report.
- Agency Patient-Related Characteristics Report.
- Two- and three-bar versions:
  - Two bar shows current results, plus a national reference.
  - Three bar shows includes prior results as well.
- HHA Trend Analysis Report and Patient Characteristics Analysis.

On-Demand Patient-Level Reports

- Outcome Tally Report.
- HHA Process Measures Tally Report.
- Patient-Related Characteristics Analysis Summary Report.

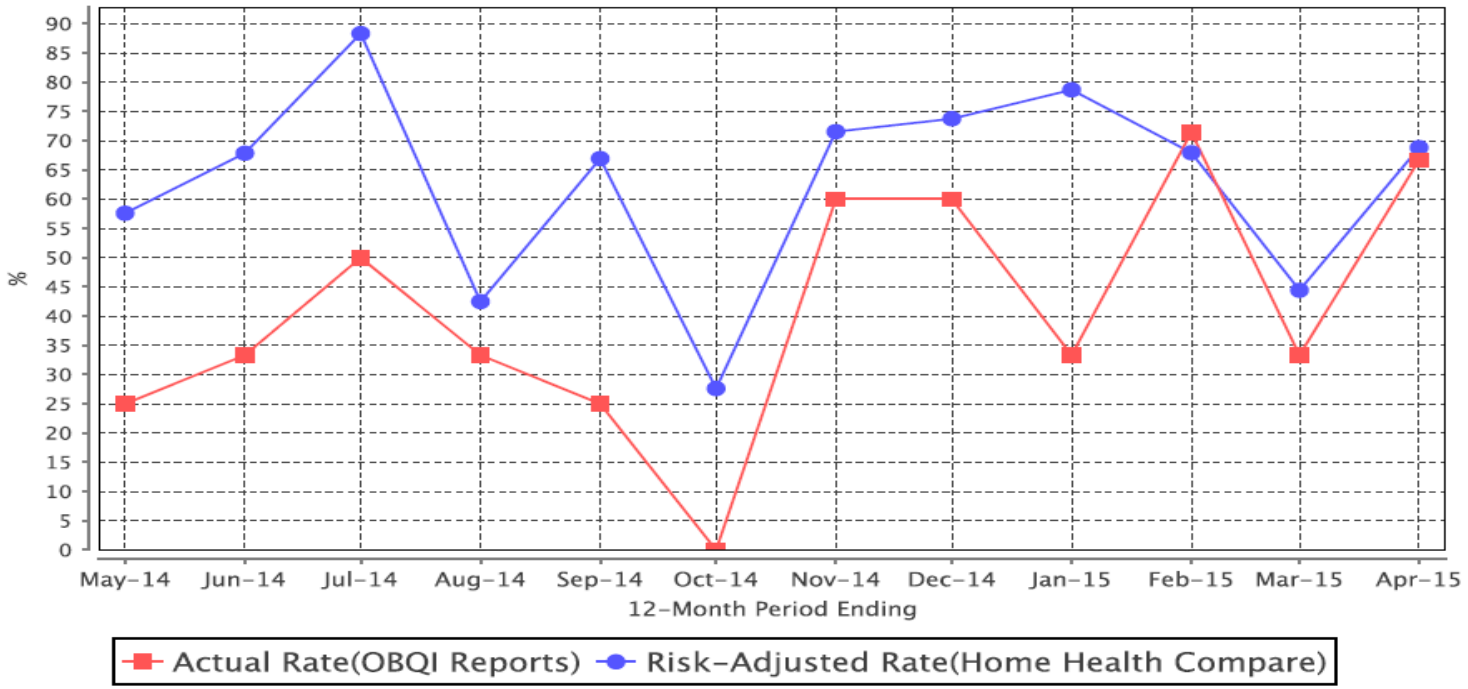
Improvement in Grooming: Actual Rates vs. Risk-Adjusted Rates for Your Agency

Actual Rate (from OBQI Reports) vs. Risk-Adjusted Rate (as Reported on Home Health Compare)



Review and Correct Reports

- Confidential reports.
- Contains agency-level QM data.
- Displays OASIS assessment-based QM data only.
- Providers are able to obtain agency-level performance for quarterly and cumulative performance rates.
- As time advances, the earliest quarter is dropped, and the most recent quarter is added.

Review and Correct Reports

- Will be available on a quarterly basis (updated weekly) and used in conjunction with the QM Reports to determine any data submission errors that may affect agency-level performance for one or more QMs.

Review and Correct Reports

CMS Certification Number:	999999
Agency Name:	HEALTH AT HOME
Street Address Line 1:	1111 2nd AVENUE
Street Address Line 2:	SUITE 105
City:	WALTHAM
State:	MA
ZIP Code:	02452
County Name:	Middlesex
Telephone Number:	(781) 555-5555

HH Quality Measure: **Timely Initiation of Care (NQF #0526)**
CMS Measure ID: 0196-10

Table Legend
* Episode: A quality episode begins with a start or resumption of care (SOC/ROC) and ends with a death, discharge or transfer. Additional measure-specific exclusions may apply.
Dash (-): Data not available or not applicable.

Reporting Quarter	Start Date	End date	Data Correction Deadline	Data Correction Period As of Report Run Date	Number of Episodes Included in the Numerator for this Measure*	Number of Episodes Included in the Denominator for this Measure*	Your Agency's Observed Performance Rate
Q4 2017	10/01/2017	12/31/2017	05/15/2018	Open	15	300	5.0%
Q3 2017	07/01/2017	9/30/2017	02/15/2018	Open	15	300	5.0%

Q1 2017	01/01/2017	03/31/2017	08/15/2017	**Closed**	15	300	5.0%
Cumulative	**01/01/2017**	**12/31/2017**	-	-	**60**	**1200**	**5.0%**

Provider Preview Reports

- Contain agency-level QM data.
- These are automatically generated and saved into your provider's shared folder in the CASPER application.
- Provider Preview Reports are available about 5 months (4.5 months data correction period + 0.5 months Preview Report generation period) after the end of each data collection quarter.

Provider Preview Reports

- Data correction period has ended, so providers are not able to correct the underlying data in these reports.
- All corrections must be made prior to the applicable quarterly data submission deadline (quarterly freeze date), which falls approximately 135 days after the end of each calendar year quarter.
- There will be a 30-day preview period prior to public reporting, which will begin the day reports are issued to providers via their CASPER system folders.

Quality of Patient Care Star Rating Preview Reports

19	Your Average Adjusted Rating	3.0
20	Your Average Adjusted Rating Rounded	3.0
21	**Your Quality of Patient Care Star Rating (1.0 to 5.0)**	***½ **(3.5 stars)**

[1]*Claims data from January 1, 2015 to December 31, 2015 and OASIS data from April 1, 2015 to March 31, 2016*

[2]*Based on your HHA's results, we suggest that you focus your attention on measures with a rating of 2.0 or less before the next quarterly reporting period. Review your HHA's care protocols that are or could be associated with this outcome or process and consider convening a meeting of your clinical staff to brainstorm how these outcomes or processes that affect the quality of patient care can be improved. Finally, once you have identified the source of the problem regarding your low score consider providing focused training of your staff to modify your existing quality of patient care practices.*

QAO Reports

- QAO Reports:
  - Assessments that can be paired to construct quality episodes for measure calculation.
  - Performance threshold is 70 percent.
- Interim reports every quarter for tracking.
- Annual report:
  - Aligns with APU determination period.
- These are automatically generated and saved into your provider's shared folder in the CASPER application.

Interim QAO Reports

Changes to Report Retention

- HHC Preview Reports:
  - Retention period within CASPER changing from 730 days to 90 days effective with the Preview Reports distributed in January 2017 (for April 2017 refresh).
  - At that time, all previous Preview Reports will be removed from the Shared Provider Folder.
    - Folder named: [State Code] HHA [Facility ID]
  - Report distributed in January 2017 (for April 2017 refresh) will be retained for 90 days.

Changes to Reports

- 34 measures will be removed from all reports, except the tally reports.
- New IMPACT Act measures will be added to the respective preview and on-demand reports:
  - Confidential feedback.
  - Review and correct.
  - Public reporting preview.

IMPACT Requirements

- Confidential feedback:
  - Agencies already can see measure results for existing measures through the on-demand reports.
  - IMPACT Act measures will be added to these reports starting January 1, 2018.
  - Patient-level information on tally reports.
  - Agency-level information on two- and three-bar reports.
