Inpatient Rehabilitation Facilities (IRF) Quality Reporting Program (QRP)

Overview

What's Inpatient Rehabilitation Facilities (IRF) Quality Reporting Program (QRP)?

The IRF QRP creates IRF quality reporting requirements, as mandated by Section 3004(a) of the Patient Protection and Affordable Care Act (ACA) of 2010. Every year, by October 1, we publish the quality measures you must report.

Section 3004(b) of the ACA amended section 1886(j)(7) of the Social Security Act (SSA) requiring the Secretary to establish quality reporting requirements for IRFs. Please see below link to text of Section 3004 of the ACA.

What happens if quality data isn't reported?

For fiscal year 2014, and each year after, if an IRF does not submit the required quality data, the IRF will be subject to a two (2) percentage point reduction in the annual increase factor.

CMS strongly encourages submitting quality data prior to the deadline ensuring the data is complete and accurate and to address any data submission issues.

Who can see the reported data?

We must make quality data available to the public and give you the opportunity to review the data before it is made public. The IRF Compare website began reporting quality measure data in late 2016.

Learn more about ACA Section 3004 (Quality Reporting for Long-Term Care Hospitals (LTCH), Inpatient Rehabilitation Facilities (IRF), and Hospice Programs) in the link below: H.R. 3590 Health Care Law P.L. Public Law No: 111-148, the Patient Protection and Affordable Care Act.

Post-Acute Care Quality Reporting Program Quarter 3 Data Submission Deadline Extension

CMS is aware of the issue with CMSNet that impacted post-acute care (PAC) providers' ability to submit assessment data for the quality reporting programs (QRP) to the QIES-ASAP system on the Quarter 3 data submission deadline of February 15, 2019. We have extended the data submission deadline, and we will be accepting QRP assessment data submissions through, Thursday, February 21, 2019. Providers can also apply for an extension following the instructions listed on the PAC QRP Reconsiderations and Exception & Extension webpages if they are unable to meet this extension deadline.

 - IRF Quality Reporting Measures Information**
 - The purpose of this page is to provide information on the measures reported by IRFs in accordance with the IRF QRP. On this page, you will find descriptions of each measure, links to measure specifications, measure updates and other measure related information. This page is updated as measure updates become available.
 - What are the Inpatient Rehabilitation Facilities (IRF) quality reporting measures?**
 - Measures currently adopted and finalized for the IRF QRP are listed below. Data for the IRF QRP measures are collected and submitted through three methods:

 - Inpatient Rehabilitation Facility – Patient Assessment Instrument (IRF-PAI)
 - Centers for Disease Control and Prevention (CDC) National Healthcare Safety Network (NHSN)
 - Medicare Fee-For-Service Claims
 - The following measures are submitted using the IRF-PAI unless noted otherwise:
 - IRF Measure #1: National Healthcare Safety Network (NHSN) Catheter Associated Urinary Tract Infection (CAUTI) Outcome Measure (NQF #0138)**
 - Use of a previous version of this measure was finalized in the FY 2012 IRF PPS Final Rule which was published in the Federal Register on 08/05/2011 (76 FR 47874). The updated version of the CAUTI measure was adopted in the CY 2013 Hospital Outpatient Prospective Payment System Final Rule which was published in the Federal Register on November 15, 2012 (77 FR 68500). Data collection for this measure began on 10/01/2012. The data for this measure is submitted via CDC/NHSN.
 - IRF Measure #2: Influenza Vaccination among Healthcare Personnel (NQF #0431)**

IRF Quality Public Reporting

Background:

Section 3004(b) of the Affordable Care Act established the IRF Quality Reporting Program (QRP). In addition, The Improving Medicare Post-Acute Care Transformation Act of 2014 (IMPACT Act) requires the reporting of standardized patient assessment data on quality, resource use, and other measures by Post-Acute Care (PAC) providers, including skilled nursing facilities, home health agencies, inpatient rehabilitation facilities, and long-term care hospitals.

IRF Compare

IRF Compare formats the reported data to be readily used by the public, which provides a snapshot of the quality of care for each facility. This tool helps families compare some key quality metrics, such as pressure ulcers and readmissions, for over 1,100 IRFs across the nation.

Procedures for requesting CMS review of an IRF's measure data:

CMS encourages IRFs to review their data as provided in the Preview Reports. If an IRF disagrees with performance data (numerator, denominator, or quality metric) contained within their Preview Report, they will have an opportunity to request review of that data by CMS. In order to make such a request, IRF providers must adhere to the process outlined below:

- Requests for CMS review of data may be submitted to CMS beginning on the day the provider preview reports are issued in IRF CASPER folders, and may be submitted through 11:59:59 p.m. PST on day 30 of the preview period.
- CMS will not accept any requests for review of data that are submitted after the posted deadline, which falls on the last day of the preview period.

The screenshot displays the CMS.gov website interface. At the top, the CMS.gov logo is visible, along with navigation links for Home, About CMS, Newsroom, Archive, Share, Help, and Print. A search bar is located on the right. Below the logo, a row of yellow buttons provides access to various CMS services: Medicare, Medicaid/CHIP, Medicare-Medicaid Coordination, Private Insurance, Innovation Center, Regulations & Guidance, Research, Statistics, Data & Systems, and Outreach & Education. The breadcrumb trail indicates the current location: Home > Medicare > Inpatient Rehabilitation Facility Quality Reporting Program > IRF Quality Reporting Data Submission Deadlines. The left sidebar contains a list of links related to the IRF Quality Reporting Program, with 'IRF Quality Reporting Data Submission Deadlines' highlighted. The main content area is titled 'IRF Quality Reporting Data Submission Deadlines' and includes a section 'When does Inpatient Rehabilitation Facility (IRF) quality data have to be submitted?'. This section explains that IRFs must report data to meet the IRF QRP Program requirements, with a deadline of no later than 11:59 p.m. Pacific Standard Time. It also mentions that data for the National Healthcare Safety Network (NHSN) must be submitted to the Centers for Disease Control (CDC). Below this, it states that data collection and submission deadlines for each APU determination year are summarized in tables available in the Downloads section. The page also encourages facilities to submit data several days prior to the deadline to allow time to address any submission issues. At the bottom, there is a section for NHSN resources, including a link to 'CMS Resources for NHSN Users' and a list of resources: Guidance on how to run and interpret NHSN output reports, and a Checklist to ensure complete reporting into NHSN. A link to the 'NHSN fact sheet' is also provided, with a note that it contains information on when monthly reporting plan, event, and summary data were first entered or last modified.

IRF Quality Reporting Data Submission Deadlines

When does Inpatient Rehabilitation Facility (IRF) quality data have to be submitted?

IRFs must report data to meet Inpatient Rehabilitation Facility Quality Reporting Program (IRF QRP) Program requirements. IRFs must submit data no later than 11:59 p.m. Pacific Standard Time. The IRF-Patient Assessment Instrument (PAI) must be transmitted to CMS through the Assessment Submission and Processing (ASAP) system to the Quality Improvement Evaluation System (QIES). Data for the National Healthcare Safety Network (NHSN) measures must be submitted to the Centers for Disease Control (CDC). No additional data submission is required for the claims-based measures.

The data collection and submission deadlines for each APU determination year are summarized in the tables available in the Downloads section below.

CMS strongly encourages all facilities to submit data several days prior to the deadline to allow time to address any submission issues and to provide opportunity to review submissions to ensure data is complete.

Rulemaking

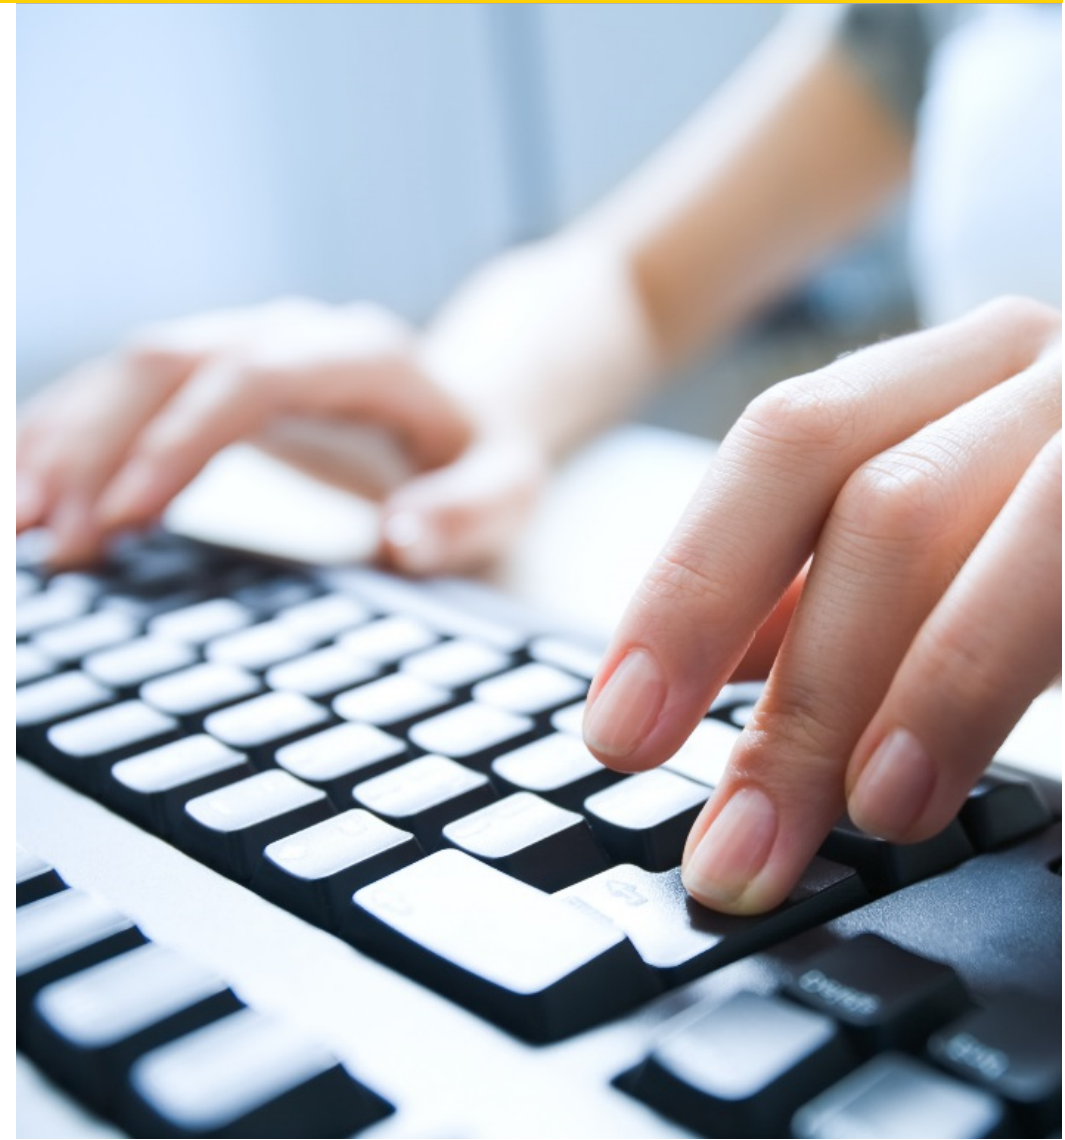

The screenshot shows the Federal Register website. At the top, there is a navigation bar with links for Sections, Browse, Search, Reader Aids, and My FR. Below this is the Federal Register logo and the text "The Daily Journal of the United States Government". The main heading is "Medicare Program; Inpatient Rehabilitation Facility Prospective Payment System for Federal Fiscal Year 2019". Below the heading, it says "A Rule by the Centers for Medicare & Medicaid Services on 08/06/2018". The document details section on the right lists: Printed version: PDF, Publication Date: 08/06/2018, Agencies: Centers for Medicare & Medicaid Services, and Dates: Effective Dates: These.

- IRF PPS FY 2019 Final Rule is posted.
- IRF PPS FY 2020 Proposed Rule is also posted and open for public comment.

- Proposed Rules and Final Rules are published in the Federal Register and typically released each year in April and August.

IRF QRP

Submission Requirements

IRF QRP Submission Requirements

- IRF QRP requires that IRFs submit quality measure and standardized patient assessment data to CMS.
- Failure to submit the required quality data may result in a 2 percentage point reduction in the IRF's annual increase factor.

IRF QRP Data Completeness Thresholds

IRFs must meet or exceed **two** separate data completeness thresholds:

95-Percent

Threshold for quality measures data collected using the IRF-PAI and submitted using QIES ASAP.

100-Percent

Threshold for quality measures data collected and submitted using CDC's NHSN.

IRF-PAI Threshold Calculation

$$\frac{\text{Numerator}}{\text{Denominator}} = \frac{\text{Assessments with 100\% of the required IRF-PAI data elements}}{\text{Assessments submitted successfully before the submission deadlines*}} \times 100 = \text{IRF-PAI Threshold Percentage}$$

* Note: The calculation algorithm will be adjusted in the case an IRF was granted an extension or exemption by CMS.

IRF-PAI Threshold Calculation Example

$$\frac{\text{Numerator}}{\text{Denominator}} = \frac{95}{100} \times 100 = 95\%$$

Compliant with
IRF QRP Data
Reporting
Requirements

What is the threshold for completion of quality measure data collected and submitted using CDC's NHSN?

- A. 75%.
- B. 80%.
- C. 90%.
