

TECHNICAL EXPERT PANEL (TEP) COMPOSITION (MEMBERSHIP) LIST

Project Title: Development, Reevaluation, and Implementation of Outpatient Outcome/Efficiency Measures

Dates: October 2018 through July 2019

Project Overview:

The Centers for Medicare & Medicaid Services (CMS) has contracted with Yale New Haven Health Services Corporation Center for Outcomes Research and Evaluation (CORE) and its partner, the Lewin Group (Lewin), to maintain imaging efficiency measures for CMS's Hospital Outpatient Quality Reporting (HOQR) Program, in alignment with the CMS Meaningful Measures framework objectives. The contract name is Development, Reevaluation, and Implementation of Outpatient Outcome/Efficiency Measures. The contract number is HHSM-500-2013-13018I. As part of its measure development process, CMS asks measure developers to convene groups of stakeholders and experts who contribute direction and thoughtful input to the measure developer during measure development and maintenance.

A roster for the TEP convened to support the imaging efficiency measures—including each member's name, credentials, professional role, perspective, and conflicts of interest—is provided in the table below. Please note that none of the members selected for this expert panel reported conflicts of interest that preclude them from participating.
