Project Title: Development of a discharge to community measure for Skilled Nursing Facilities (SNFs), Inpatient Rehabilitation Facilities (IRFs), Long-Term Care Hospitals (LTCHs), and Home Health Agencies (HHAs).

Date: August 25, 2015

Project Overview: The Centers for Medicare & Medicaid Services (CMS) has contracted with RTI International and Abt Associates to develop a cross-setting discharge to community measure to meet the mandate of the Improving Post-Acute Care Transformation Act of 2014 (known as the IMPACT Act). The contract names are Development and Maintenance of Symptom Management Measures (HHSM-500-2013-13015I; Task Order HHSM-500-T0001) and Outcome and Assessment Information Set (OASIS) Quality Measure Development and Maintenance (HHSM-500-2013-13001I; Task Order HHSM-500-T0002). As part of its measure development process, CMS asks contractors to convene groups of stakeholders and experts who contribute direction and thoughtful input to the measure contractor during measure development and maintenance.
