to Chapter 3, Section E V1.10

Chapter	Section	Page	Change
3	E0500	E-9	2. During the last 7 days, a resident with vascular dementia and severe hypertension, hits staff during incontinent care making it very difficult to change her. Six out of the last seven days the resident refuses all her medication including her antihypertensive. The resident would closes her mouth and shaking her head and will not take it even if re-approached multiple times.
3	E0600	E-12	4. When eating in the dining room, a resident frequently grabs food off the plates of other residents. Although their other resident's food is replaced, and the behavior does not compromise their nutrition, other residents become anxious in anticipation of this recurring behavior.
3	E0600	E-13	Rationale: This behavior does not put other residents at risk for significant injury. However, The behavior restricts full participation in the organized activity, and limits the enjoyment of other residents. It also causes fear, thereby disrupting the living environment.
3	E0600	E-16	3. A resident goes to bed at night without changing out of the clothes he wore during the day. When a nursing assistant offers to help him get undressed, he declines, stating that he prefers to sleep in his clothes tonight. The clothes are wet with urine. This has happened 2 of the past 5 7 days. The resident was previously fastidious, recently has expressed embarrassment at being incontinent, and has care goals that include maintaining personal hygiene and skin integrity.
3	E1100	E-22	1. On the prior assessment, the resident was reported to wander on 4 out of 5 7 days. Because of elopement, the behavior placed the resident at significant risk of getting to a dangerous place. On the current assessment, the resident was found to wander on 2 of the last 5 7 days. Because a door alarm system is now in use, the resident was not at risk for elopement and getting to a dangerous place. However, the resident is now wandering into the rooms of other residents, intruding on their privacy. This requires occasional redirection by staff.
