

**2013 Physician Quality Reporting System (PQRS) and
Electronic Prescribing (eRx) Incentive Programs Qualified Electronic Health Record (EHR) Data Submission Vendors**

CMS is pleased to announce the 2013 EHR Data Submission Vendors that self-nominated to submit quality data to CMS for the 2013 Physician Quality Reporting System program year. Each of these EHR Data Submission Vendors will complete a thorough vetting process to verify they have the capability to provide the required data elements for the measures they intend to submit. An updated list of vendors will be posted once the vetting has been completed.

The EHR Data Submission Vendors are able to submit PQRS data on behalf of individual eligible professionals (EPs). Some of the 2013 EHR Data Submission Vendors are also able to submit Electronic Prescribing (eRx) Incentive Program data on behalf of individual EPs and GPRO group practices. Some of the 2013 EHR Data Submission Vendors are also able to submit PQRS – Medicare EHR Incentive Pilot data on behalf of individual EPs.

Each of the 2013 EHR Data Submission Vendors have provided detailed information regarding the services they offer, the cost incurred by their clients, as well as the reporting and measure options supported. This information can be found in the table below.

Eligible professionals, wishing to participate in 2013 PQRS, eRx Incentive Program and PQRS – Medicare EHR Incentive Pilot through an EHR Data Submission Vendor, may contact the vendors listed below for additional details. Some vendors may have additional capabilities that are not listed on this posting. Please check with the vendor for additional information.

Disclaimer: While CMS makes every effort, by way of a vigorous testing process, to ensure that these Data Submission Vendors will be able to submit their eligible professional's quality measure data to CMS, CMS cannot guarantee that any individual eligible professional will be successful. Each vendor has reviewed their organization's information below and provided confirmation of accuracy. Information included in this document was accurate at the time posting; however CMS cannot guarantee that these services will be available during the submission period.
