

**Technical Corrections  
Coding for Quality  
A Handbook for PQRI Participation**

---

September 4, 2007

CMS announces the following revisions to *Coding for Quality, A Handbook for PQRI Participation*, dated June 18, 2007. Please replace pages 118, 129, 133, 145 and 149 in the PQRI Handbook.

**Measure #21 Perioperative Care: Selection of Prophylactic Antibiotic First OR Second Generation Cephalosporin (page 118)**

- Under Eligible Cases (in the blue box), replaced code 38320 with 28320 in the denominator coding

**Measure #66 Appropriate Testing for Children with Antibiotics (page 129)**

- The Sample Clinical Scenario states “An 18 month old patient with pharyngitis presents...” has been corrected to “A two year old patient with pharyngitis presents...”

**Measure #57 Assessment of Oxygen Saturation for Community-acquired Pneumonia (page 133)**

- Under Reporting Options (in the yellow box) code 3027F-3P listed as a Performance Exclusion for this measure has been corrected to code 3028F-3P

**Measure #31 Stroke and Stroke Rehabilitation Deep Vein Thrombosis (DVT) for Ischemic Stroke or Intracranial Hemorrhage (page 145)**

- Under Reporting Options (in the yellow box) code 4070-1P listed as a Performance Exclusion for this measure has been corrected to code 4070F-1P

**Measure #33 Stroke and Stroke Rehabilitation Anticoagulant Therapy Prescribed for Atrial Fibrillation at Discharge (page 149)**

- Under Reporting Options (in the yellow box) code 4075-1P listed as a Performance Exclusion (in the yellow box) for this measure has been corrected to code 4075F-1P
