

The Sand Point Community Health Center provides many health services that are necessary to keep your children healthy. Denali KidCare may provide services that the clinic doesn't cover. Enrolling in the State of Alaska program benefits your tribal community and tribal clinic by maximizing health care resources.

Children's health insurance covers urgent health care needs and more, including:

- Regular Check-ups
- Prescription Drugs
- Dental Care
- Immunizations

The only way to know if you're eligible is to apply!

Discuss the benefits of Denali KidCare with Mary Mobeck, our Sand Point Community Health Representative, when she visits your home or ask about Denali KidCare when you visit the clinic.
