### PROVIDER TYPE AFFECTED

---

This MLN Matters Article is intended for physicians, providers and suppliers billing Medicare Administrative Contractors (MACs) for services provided to Medicare beneficiaries.

### PROVIDER ACTION NEEDED

---

Change Request (CR) 10593 includes the normal update to the National Correct Coding Initiative (NCCI) Procedure-to-Procedure (PTP) edits. This update applies to Chapter 23, Section 20.9 of the Medicare Claims Processing Manual. Please make sure your billing staffs are aware of these updates.

### BACKGROUND

---

The Centers for Medicare & Medicaid Services (CMS) developed the National Correct Coding Initiative (NCCI) to promote national correct coding methodologies and to control improper coding that leads to inappropriate payment in Part B claims.

Version 24.2 will include all previous versions and updates from January 1, 1996 to the present. In the past, NCCI was organized in two tables: Column 1/Column 2 Correct Coding Edits and Mutually Exclusive Code (MEC) Edits. To simplify the use of NCCI edit files (two tables), on April 1, 2012, CMS consolidated these two edit files into the Column One/Column Two Correct Coding edit file. Separate consolidations have occurred for the two practitioner NCCI edit files and the two NCCI edit files used for the Outpatient Code Editor (OCE). It will only be necessary to search the Column One/Column Two Correct Coding edit file for active or previously deleted edits.

CMS no longer publishes a Mutually Exclusive edit file on its website for either practitioner or outpatient hospital services, since all active and deleted edits will appear in the single Column One/Column Two Correct Coding edit file on each website. You should note that **the edits**

previously contained in the Mutually Exclusive edit file are NOT being deleted but are being moved to the Column One/Column Two Correct Coding edit file. Please refer to the CMS NCCI webpage for additional information at <http://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html>.

The coding policies developed are based on coding conventions defined in the American Medical Association's Current Procedural Terminology manual, national and local policies and edits, coding guidelines developed by national societies, analysis of standard medical and surgical practice, and review of current coding practice.
