Fall 2009: E-Care Plan Development

- Strong collaboration between Clinical Director and Information Services
- Homegrown Access Database
- Mesh clinical needs with technical capabilities
- Continuous team input
- I & A renamed ICP (Interdisciplinary Care Plan)
- Do, Re-do, Do, Re-do, Do, Re-do

Winter 2010: E-Care Plan Presented to Team

- Generated team enthusiasm
- Reviewed in small groups
- Began to develop “e-libraries”
- List of specific needs, goals, interventions
- Incorporated feedback; reprogramming

February 2010: GO LIVE:

Each discipline has a separate section

- Need/Problem
- Measurable Goal(s)
- Interventions

Some disciplines have additional findings to report on, e.g., Fall Risk Assessment and use of smoke detectors.

Developing TEAM GOALS, Live during the ICP Session

After each discipline has laid out its individual plan of care, the team identifies participant's strengths and establishes team goals.

Personalized Team Goals

Team goals can be selected and personalized from a library in 7 categories.

Care Plan Timeframes

- Month 1 – establish the care plan
- Month 6 – evaluate care plan, add/adjust/change

Care Plan Addenda

- Identified any time during the period
- Occurs mainly during Morning Meeting
- Maintained on one report (cumulative entries)

Challenges and Opportunities: “Work in Progress”

- On-going technical glitches
- Database not suited to multiple users
- Developing team goals (still challenging!)
- Getting team involvement in library-building
- Establishing team members’ competency
- Documentation of participant and family input/review
- Updates to Addendum page
- Attention to “significant change” process
