

Expanded Home Health Value-Based Purchasing (HHVBP) Model Calendar Year (CY) 2026 Measures and Reports At-A-Glance

- CY 2026 is the fourth performance year for the expanded HHVBP Model. Home health agency (HHA) performance for the CY 2026 applicable measure set will determine payment adjustments that will apply to CY 2028 Medicare fee-for-service (FFS) claims for home health services.
- The Model baseline year for the CY 2026 performance year is CY 2023 for all measures except Discharge to Community – Post-Acute Care (DTC-PAC) and Medicare Spending Per Beneficiary-PAC (MSPB-PAC). For the DTC-PAC and MSPB-PAC measures, the Model baseline years are CY 2022 and CY 2023.

Expanded Model Reports Available in CY 2025

- **Interim Performance Report (IPR):** Eligible Medicare-certified HHAs will receive four IPRs per year. Preliminary versions of the IPR will be available quarterly in January, April, July, and October for previewing performance reviews. Visit [Instructions for Submitting a Recalculation Request](#) for more information.
- **Annual Performance Report (APR):** Shows performance data and the adjusted payment percentage (APP) that will apply to the HHA's Medicare FFS claims for the respective payment year. For the CY 2025 performance year/CY 2027 payment year, eligible Medicare-certified HHAs will receive a Preview APR in August 2026. If an HHA believes there is an error, the HHA may submit a recalculation request. If an HHA disagrees with the results of CMS's recalculation decision reflected in their Preliminary APR, the HHA may submit a reconsideration request. Upon receiving a response to the reconsideration request, an HHA may request CMS Administrator review of that reconsideration decision.
