

The OPPS cost statistics for each APC grouping of HCPCS codes sorted by APC are in one file and are sorted by Category and APC in the other file and reflect CY 2015 final rule APC groups and code assignments. These documents are intended for use at the March 2015 HOP Panel Winter Meeting and are based on a run of data from CY 2014 claims through September 2014. These documents are not reflective of the data used for the CY 2015 OPPS Final Rule. We will use a more complete set of CY 2014 claims data for the CY 2016 OPPS NPRM.
