I. GENERAL INFORMATION

A. Background: The Centers for Medicare & Medicaid Services (CMS) and its predecessor organization, the Health Care Financing Administration, have implemented Medicare fee for service (FFS) demonstration projects to support the development and implementation of payment systems associated with FFS and hybrid delivery systems, alternative payment structures and health care delivery systems to achieve value based purchasing, health promotion and disease prevention activities for Medicare beneficiaries, the examination of payment and delivery systems of FFS in acute and long term care, and expanded access and developed infrastructure in underserved areas (rural/inner city areas) or populations with special needs or chronic conditions.

Since some Medicare demonstration projects no longer serve a business need and claims processing for the demonstration is complete, CMS is requesting that contractors archive/remove Medicare demonstration projects/codes that are no longer active. CMS believes archiving obsolete Medicare demonstration projects/codes will reduce system complexity and make future maintenance efforts more efficient. This Change Request is a subsequent Change Request to Analysis CR9325 and CR9802. The removal of obsolete demonstration codes are being removed incrementally with this Change Request and future Change Requests.
