I. GENERAL INFORMATION

- **A. Background:** The CMS has implemented the Targeted Probe & Educate (TPE) strategy across all Medicare Administrative Contractors (MACs) on October 1, 2017. After careful examination, internally and with the MACs, this CR is intended to update, replace, and clarify the monthly metrics deliverable (Attachment B from CR10249).
- **B. Policy:** The MACs shall conduct all medical record reviews using the TPE strategy. Prior authorization and automated reviews directed by CMS are outside of the TPE strategy.

NOTE: Non-responses count as an error when considering a provider's or supplier's error rate. Additionally, a "related claim review," for those services related to a denied claim, would not require using the TPE strategy (e.g., conducting a 20-40 claim probe of provider/supplier claims that are adjunct to a denied service/device) and would be denied in kind.
