I. GENERAL INFORMATION

A. Background: The MDPP Expanded Model is an expansion of the Center for Medicare & Medicaid Services (CMS') Diabetes Prevention Program (DPP) model test, which was tested from 2012-2015 under the authority of section 1115A(b) of the Social Security Act (the Act). The Secretary of Health and Human Services expanded the DPP model test in duration and scope under the authority of section 1115A(c) of the Act. Following certification of the DPP model test by the Chief Actuary in March 2016, The Center for Medicare and Medicaid Innovation (CMMI) expanded the model nationwide through the CY 2017 and 2018 Medicare Physician Fee Schedule (PFS) final rules. MDPP suppliers began enrolling in Medicare on January 1, 2018 and could begin furnishing MDPP services and billing Medicare for MDPP services on April 1, 2018. The MDPP Expanded Model is intended to prevent Medicare beneficiaries with an indication of prediabetes from developing diabetes. Prevention of diabetes among this high-risk group of Medicare beneficiaries is expected to result in significant cost savings to the Medicare program as certified by the Office of the Actuary.

B. Policy: In the CY 2018 Physician Fee Schedule final rule, CMS stated, "the [MDPP] performance payments and bridge payment will be adjusted each calendar year by the percent change in the Consumer Price Index for All Urban Consumers (CPI-U) (U.S. city average) for the 12-month period ending June 30th of the year preceding the update year. The percent change update will be calculated based on the level of precision of the index as published by the Bureau of Labor Statistics and applied based on one decimal place of precision. The annual MDPP services payment update will be published by CMS transmittal."

This means that the MDPP payment rates will be adjusted each calendar year based on the CPI-U. Payment rates will be in effect each year from January 1st through December 31st. CMS intends to calculate the payment rates for each calendar year and instruct the A/B MACs (Part) and the Railroad Specialty MAC to manually update the MDPP payment rates each year through a non-systems-change CR.

This CR contains instructions to A/B MACs (Part B) and the Railroad Specialty MAC to update the MDPP Expanded Model payment rates for CY 2019. CMS has calculated the MDPP payment rates for CY 2019 and included them in an attachment to this CR.

The A/B MACs (Part B) and the Railroad Specialty MAC may contact Amanda Van Vleet (amanda.vanvleet@cms.hhs.gov) or Carlye Burd (carlye.burd@cms.hhs.gov) with any questions.
