**INSTRUCTIONS FOR RECEIVING
2020 PART B PRICING FILES
VIA CMS' MAINFRAME TELECOMMUNICATIONS SYSTEM**

Listed below are instructions for receiving the 2020 Part B Pricing Files via CMS' mainframe telecommunications system. In order not to incur additional transmission cost, transmission must occur during the evening hours, specifically after 8:00 P.M. Eastern Standard Time (EST).

Listed below are the most common problems encountered when A/M MACs receive data via CMS' mainframe telecommunications system:

- o Receipt was performed in interactive mode, rather than batch. If transmission is performed interactively, it is impossible for DHPPD to access the CMS' mainframe telecommunications system log to verify transmission success/failure.
- o Omission or change of NEWNAME parameter. Omission of this parameter makes it extremely difficult and cumbersome for DHPPD to access CMTS log to verify transmission success/failure. See the following NEWNAME parameters:
 - **DMEPOS** for services priced under the durable medical equipment, prosthetics, orthotic and supply fee schedule
 - **CLAB** for services priced under the clinical diagnostic laboratory fee schedule
 - **MPFS** for the radiology and other diagnostic services priced under the physician fee schedule
 - **HCPCS** for procedure coding information required for claims processing
- o Omission or change of STARTT parameter. This parameter establishes the starting time for the batch job. As stated earlier, transmission must occur during the evening hours. Setting the STARTT to 20:00:00 hours assures that transmission will not commence prior to 8:00 PM EST.

The following is the JCL required for setting up a CMTS transmission of the 2020 Part B Pricing Files file from the CMS Data Center.
