For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC statement of Work. The contractor is not obliged to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: Rescind and Replace of CR 8409: Reclassification of Certain Durable Medical Equipment from the Inexpensive and Routinely Purchased Payment Category to the Capped Rental Payment Category

EFFECTIVE DATE: April 1, 2014

IMPLEMENTATION DATE: April 7, 2014

I. GENERAL INFORMATION

A. Background: This one-time notification provides instructions regarding the reclassification of certain Durable Medical Equipment (DME) from the inexpensive and routinely purchased (IN) DME payment category to the capped rental (CR) DME payment category for the Healthcare Common Procedure Coding System (HCPCS) codes listed in Attachment A.

DME and accessories used in conjunction with DME are paid for under the DME benefit and in accordance with the rules at section 1834(a) of the Act. The Medicare definition of routinely purchased durable medical equipment (DME) set forth at 42 CFR §414.220(a)(2) specifies that routinely purchased equipment means equipment that was acquired by purchase on a national basis at least 75 percent of the time during the period July 1986 through June 1987. A review of expensive items that have been classified as routinely purchased equipment since 1989, that is, new codes added to the HCPCS after 1989 for items costing more than \$150, showed inconsistencies in applying the definition. As a result, a review of the definition of routinely purchased DME was published in the Federal Register (CMS-1526-F) along with notice of DME items (codes) requiring a revised payment category. Also in the rule, CMS established that DME wheelchair accessories that are capped rental items furnished for use as part of a complex rehabilitative power wheelchair (wheelchair base codes K0835 – K0864) are payable under the lump sum purchase method. The complex rehabilitative power wheelchair base codes and options/accessories are payable under the lump sum purchase method set forth at 42 CFR §414.229(a)(5) and section 1834(a)(7)(A)(iii) of the Act.

B. Policy: In order to align the payment category with the required regulatory definition, certain HCPCS codes listed in Attachment A shall reclassify from the inexpensive and routinely purchased (IN) DME payment category to the capped rental (CR) DME payment category. Instructions for billing capped rental items can be found at Medicare Claims Processing Manual (Pub. 100-04), chapter 20, section 130.9 along with other sources listed on the CMS and contractor websites.

Note: The effective date is April 1, 2014 for HCPCS codes not included in a Competitive Bidding Program (CBP) as shown in Attachment A. A forthcoming change request will address the codes that are reclassifying to the CR payment category effective July 1, 2016 and January 1 2017.

As shown below, HCPCS codes for items included under the Round 2 and/or Round 1 Recompete DMEPOS competitive bidding programs (CBP) shall transition to the capped rental payment category in stages.

Payment Category Transition Effective Dates

April 1, 2014: HCPCS codes not included in a CBP are reclassified from IN DME to CR DME in all areas.

July 1, 2016: HCPCS codes included in a CBP are reclassified from IN DME to CR DME in all areas except the 9 Round 1 Recompete CBAs, where items furnished to beneficiaries residing in these areas will remain in IN DME through December 31, 2016.

January 1, 2017: HCPCS codes included in a CBP are reclassified from IN DME to CR DME in the 9 Round 1 Recompete CBAs

For the HCPCS codes that are not included in either a Round 2 or Round 1 Recompete CBP, the effective date for the reclassification from routinely purchased DME to capped rental DME in all areas (i.e. competitive bidding areas (CBAs) and non-CBAs) is April 1, 2014. For the HCPCS codes that are included under a Round 2 CBP and/or a Round 1 Recompete CBP the effective date for the transition to capped rental DME shall be July 1, 2016, except for items furnished in the 9 Round 1 Recompete CBAs. When the HCPCS codes listed below are furnished in CBAs in accordance with contracts entered into as part of the Round 1 Recompete CBP, the payment category transition from inexpensive and routinely purchased to capped rental DME is effective January 1, 2017.

Complex Rehabilitative Power Wheelchair Accessories

Effective April 1, 2014, for wheelchair accessory codes classified under the capped rental DME payment category and furnished for use with a complex rehabilitative power wheelchair (that is, furnished to be used as part of the complex rehabilitative power wheelchair), the supplier must give the beneficiary the option of purchasing these accessories at the time they are furnished. These accessory items would be considered as part of the complex rehabilitative power wheelchair (codes K0835 – K0864) and associated lump sum purchase option set forth at 42 CFR § 414.229(a)(5). If the beneficiary declines the purchase option, the supplier must furnish the items on a rental basis and payment shall be made on a monthly rental basis in accordance with the capped rental payment rules.
