

Appendix D2- FISS Edits

No	Edit	SSM	Description	Replacement Edit	Replacement System	Analysis Description
1	31568	FISS	Transplant date discharge date greater than Occurrence Code 36 Date	N/A	N/A	This edit is indicated as 'Inactive' according to the FISS reason code file. Edit will be deleted.
2	31571	FISS	No Transplant Information on Bene File	N/A	N/A	This edit is indicated as 'Inactive' according to the FISS reason code file. Edit will be deleted.
3	31572	FISS	Transplant Covered info on bene file and Occurrence Code 36 Present on Claim	N/A	N/A	This edit is indicated as 'Inactive' according to the FISS reason code file. Edit will be deleted.
4	32910	FISS	Hospice Terminally Ill indicator is missing	N/A	N/A	This edit is indicated as 'Inactive' according to the FISS reason code file. Edit will be deleted.
5	3Q103	FISS	Patient Last name and First Initial Does not match Bene File	CWF5052	CWF/BDS	This edit is populated on the claim batch entry screen. Editing can be performed with CWF 5052 during BDS transaction or normal CWF claims processing.
6	4U0YT	FISS	Temporary address change but source code is equal to spaces	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
7	4U0T1	FISS	Temporary changes source entered but first and second line of temp address not entered	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.

Appendix D2- FISS Edits

No	Edit	SSM	Description	Replacement Edit	Replacement System	Analysis Description
8	4U0T4	FISS	Temporary change source entered but valid temp zip not entered	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
9	4U0CT	FISS	Temp address entered but temp effective date not entered	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
10	4U0XT	FISS	Temp Address Undeliverable Indicator is not equal to Blank or Z	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
11	4U0AT	FISS	Temp Address Effective date is invalid	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
12	4U0BT	FISS	Temp Address Term date invalid	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
13	4U02T	FISS	Temp address effective date greater than temp address term date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
14	4U0IT	FISS	Temp address term date greater than 9 months from temp address effective date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
15	4U0ET	FISS	Temp address effective date equals temp address term date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.

Appendix D2- FISS Edits

No	Edit	SSM	Description	Replacement Edit	Replacement System	Analysis Description
16	4U033	FISS	Temp address effective date less than Rep-payee address term date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
17	4U0GR	FISS	Rep-payee effective date must be greater than temp address term date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
18	4U0AR	FISS	Rep payee address effective date is invalid	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.
19	4U0CR	FISS	Rep-payee address effective date not entered	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only
20	4U0ER	FISS	Rep-payee address effective date greater than rep-payee address term date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only
21	4U0FR	FISS	Rep-payee address effective date equals rep-payee address term date	New	CWF	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only
22	4U0UU	FISS	MSN Suppress indicator not equal to 'blank', 'y', or 'n'	N/A	N/A	File Maintenance edit could be considered for removal if data is populated by CWF/BDS only.

Appendix D2- FISS Edits

No	Edit	SSM	Description	Replacement Edit	Replacement System	Analysis Description
23	4U050	FISS	Patient last name entered does not match the name on the beneficiary file	CWF5052	BDS	File maintenance edit for DDE Beneficiary eligibility screen. Comments: FISS should continue to set it because CWF can only error if the HIC matching criteria fails. E.g. if all other elements but the name is a mismatch it can still be the same bene per CWF. Keeping this edit would mean that FISS needs to store a bene data file to edit against. Edit needs more analysis.
24	4U051	FISS	Patient's sex entered does not match the sex that is on the beneficiary file	No current CWF Edit	BDS	File maintenance edit for DDE Beneficiary eligibility screen. When the incorrect sex code is transmitted to CWF, an error does not assign. Instead, the correct sex code is returned on the Base Reply Trailer 00 MAP104L and this information is updated on the claim and the local beneficiary file. (See comments above)
