# SUBJECT: Calendar Year (CY) 2014 Annual Update for Clinical Laboratory Fee Schedule and Laboratory Services Subject to Reasonable Charge Payment

#### **EFFECTIVE DATE: January 1, 2014 IMPLEMENTATION DATE: January 6, 2014**

#### I. GENERAL INFORMATION

**A. Background:** This Recurring Update Notification (RUN) provides instructions for the CY 2014 clinical laboratory fee schedule, mapping for new codes for clinical laboratory tests, and updates for laboratory costs subject to the reasonable charge payment.

#### **B.** Policy: Update to Fees

In accordance with Section 1833(h)(2)(A)(i) of the Social Security Act (the Act), as amended by Section 628 of the Medicare Prescription Drug, Improvement and Modernization Act (MMA) of 2003, and further amended by Section 3401 of the Patient Protection and Affordable Care Act (PPACA) of 2010, the annual update to the local clinical laboratory fees for CY 2014 is (-0.75) percent. The annual update to local clinical laboratory fees for CY 2014 reflects an additional multi-factor productivity adjustment and a (-1.75) percentage point reduction as described by the PPACA legislation. The annual update to payments made on a reasonable charge basis for all other laboratory services for CY 2014 is 1.80 percent (See 42 CFR 405.509(b)(1)). Section 1833(a)(1)(D) of the Act provides that payment for a clinical laboratory test is the lesser of the actual charge billed for the test, the local fee, or the national limitation amount (NLA). For a cervical or vaginal smear test (pap smear), Section 1833(h)(7) of the Act requires payment to be the lesser of the local fee or the NLA, but not less than a national minimum payment amount (described below). However, for a cervical or vaginal smear test (pap smear), payment may also not exceed the actual charge. The Part B deductible and coinsurance do not apply for services paid under the clinical laboratory fee schedule.

#### National Minimum Payment Amounts

For a cervical or vaginal smear test (pap smear), Section 1833(h)(7) of the Act requires payment to be the lesser of the local fee or the NLA, but not less than a national minimum payment amount. Also, payment may not exceed the actual charge. The CY 2014 national minimum payment amount is \$14.42 (\$14.53 plus (-0.75) percent update for CY 2014). The affected codes for the national minimum payment amount are 88142, 88143, 88147, 88148, 88150, 88152, 88153, 88154, 88164, 88165, 88166, 88167, 88174, 88175, G0123, G0143, G0144, G0145, G0147, G0148, and P3000.

#### National Limitation Amounts (Maximum)

For tests for which NLAs were established before January 1, 2001, the NLA is 74 percent of the median of the local fees. For tests for which the NLAs are first established on or after January 1, 2001, the NLA is 100 percent of the median of the local fees in accordance with Section 1833(h)(4)(B)(viii) of the Act.

#### Access to Data File

The CY 2014 clinical laboratory fee schedule data file shall be retrieved electronically through CMS' mainframe telecommunications system. Carriers shall retrieve the data file on or after November 19, 2013. Intermediaries shall retrieve the data file on or after November 19, 2013. Internet access to the CY 2014

clinical laboratory fee schedule data file shall be available after November 19, 2013, at http://www.cms.hhs.gov/ClinicalLabFeeSched. Other interested parties, such as the Medicaid State agencies, the Indian Health Service, the United Mine Workers, and the Railroad Retirement Board, shall use the Internet to retrieve the CY 2014 clinical laboratory fee schedule. It will be available in multiple formats: Excel, text, and comma delimited.

### **Data File Format**

For each test code, if your system retains only the pricing amount, load the data from the field named "60% Pricing Amt." For each test code, if your system has been developed to retain the local fee and the NLA, you may load the data from the fields named "60% Local Fee Amt" and "60% Natl Limit Amt" to determine payment. For test codes for cervical or vaginal smears (pap smears), you should load the data from the field named "60% Pricing Amt" which reflects the lower of the local fee or the NLA, but not less than the national minimum payment amount. Fiscal intermediaries should use the field "62% Pricing Amt" for payment to qualified laboratories of sole community hospitals.

#### **Public Comments**

On July 10, 2013, CMS hosted a public meeting to solicit input on the payment relationship between CY 2013 codes and new CY 2014 CPT codes. Notice of the meeting was published in the Federal Register on May 24, 2013, and on the CMS Web site approximately June 1, 2013. Recommendations were received from many attendees, including individuals representing laboratories, manufacturers, and medical societies. CMS posted a summary of the meeting and the tentative payment determinations on the Web site at http://www.cms.hhs.gov/Medicare/Medicare-Fee-for-Service-Payment/ClinicalLabFeeSched/index.html. Additional written comments from the public were accepted until October 30, 2013. CMS has posted a summary of the public comments and the rationale for the final payment determinations on the CMS Web site.

#### **Pricing Information**

The CY 2014 clinical laboratory fee schedule includes separately payable fees for certain specimen collection methods (codes 36415, P9612, and P9615). The fees have been established in accordance with Section 1833(h)(4)(B) of the Act.

The fees for clinical laboratory travel codes P9603 and P9604 are updated on an annual basis. The clinical laboratory travel codes are billable only for traveling to perform a specimen collection for either a nursing home or homebound patient. If there is a revision to the standard mileage rate for CY 2014, CMS will issue a separate instruction on the clinical laboratory travel fees.

The CY 2014 clinical laboratory fee schedule also includes codes that have a "QW" modifier to both identify codes and determine payment for tests performed by a laboratory having only a certificate of waiver under the Clinical Laboratory Improvement Amendments (CLIA).

#### **Organ or Disease Oriented Panel Codes**

Similar to prior years, the CY 2014 pricing amounts for certain organ or disease panel codes and evocative/suppression test codes were derived by summing the lower of the clinical laboratory fee schedule amount or the NLA for each individual test code included in the panel code. The NLA field on the data file is zero-filled.

#### Laboratory Costs Subject to Reasonable Charge Payment in CY 2014

For outpatients, the following codes are paid under a reasonable charge basis (See Section 1842(b)(3) of the Act). In accordance with 42 CFR 405.502 through 42 CFR 405.508, the reasonable charge may not exceed the lowest of the actual charge or the customary or prevailing charge for the previous 12-month period ending June 30, updated by the inflation-indexed update. The inflation-indexed update is calculated using the change in the applicable Consumer Price Index for the 12-month period ending June 30 of each year as set forth in 42 CFR 405.509(b)(1). The inflation-indexed update for CY 2014 is 1.8 percent.

Manual instructions for determining the reasonable charge payment can be found in Pub. 100-4, Medicare Claims Processing Manual, Chapter 23, Section 80 through 80.8. If there is insufficient charge data for a code, the instructions permit considering charges for other similar services and price lists.

When services described by the Healthcare Common Procedure Coding System (HCPCS) in the following list are performed for independent dialysis facility patients, Pub. 100-04, Medicare Claims Processing Manual, Chapter 8, Section 60.3 instructs that the reasonable charge basis applies. However, when these services are performed for hospital-based renal dialysis facility patients, payment is made on a reasonable cost basis. Also, when these services are performed for hospital outpatients, payment is made under the hospital outpatient prospective payment system (OPPS).
