Conflict of Interest

Alexandra Mugge, Deputy Chief Health Informatics Officer, CMS

Has no real or apparent conflicts of interest to report.

Disclaimer

This presentation was prepared as a tool to assist providers and is not intended to grant rights or impose obligations. Although every reasonable effort has been made to assure the accuracy of the information within these pages, the ultimate responsibility for the correct submission of claims and response to any remittance advice lies with the provider of services.

This publication is a general summary that explains certain aspects of the Medicare Program, but is not a legal document. The official Medicare Program provisions are contained in the relevant laws, regulations, and rulings. Medicare policy changes frequently, and links to the source documents have been provided within the document for your reference.

The Centers for Medicare & Medicaid Services (CMS) employees, agents, and staff make no representation, warranty, or guarantee that this compilation of Medicare information is error-free and will bear no responsibility or liability for the results or consequences of the use of this presentation.

A Proposed Rule to Help Patients Access their Health Information

#HIMSS19

A lack of seamless data exchange in healthcare...

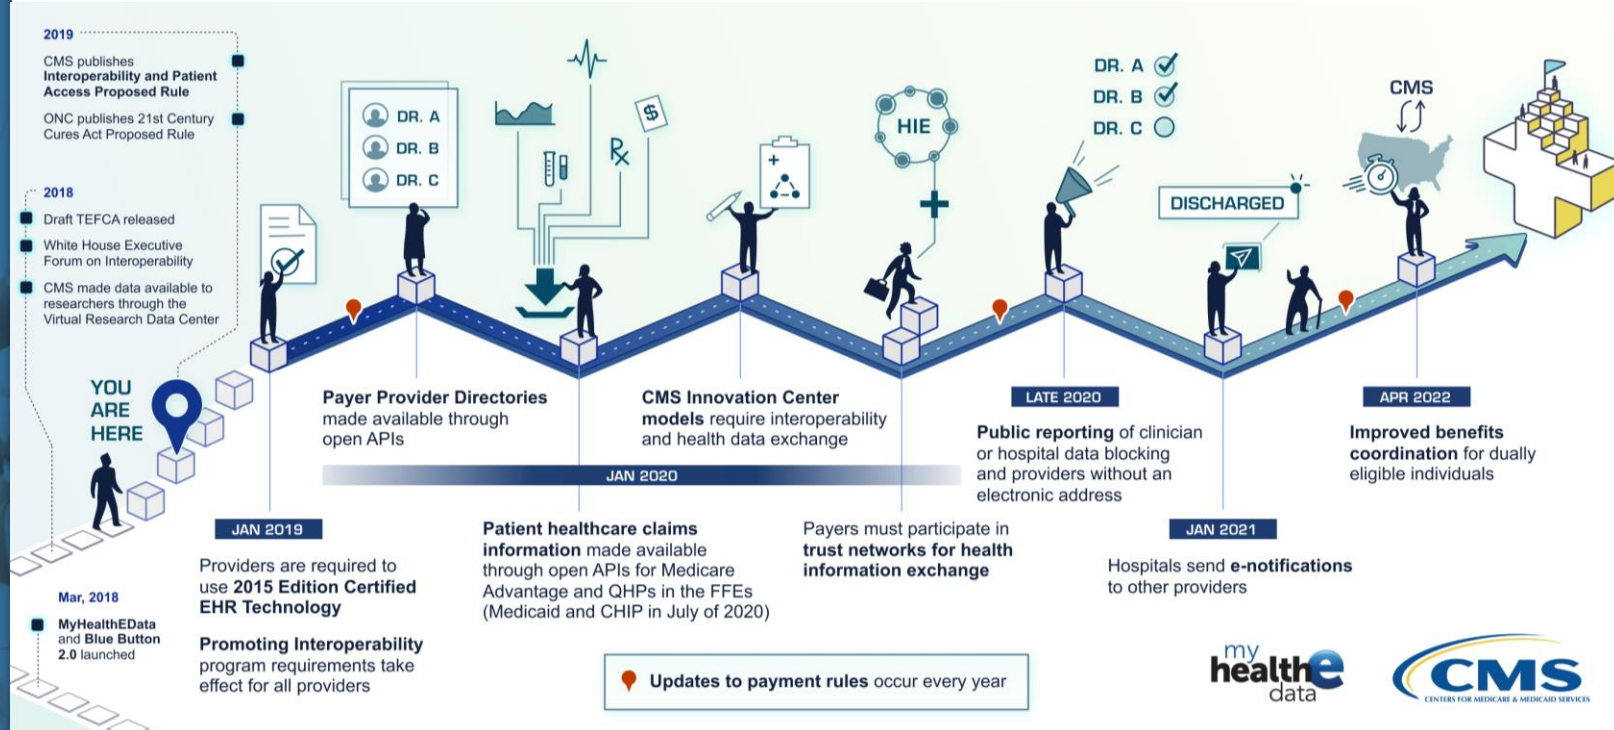

leads to disconnected care, worse health outcomes,
and higher costs.

Interoperable healthcare data exchange...

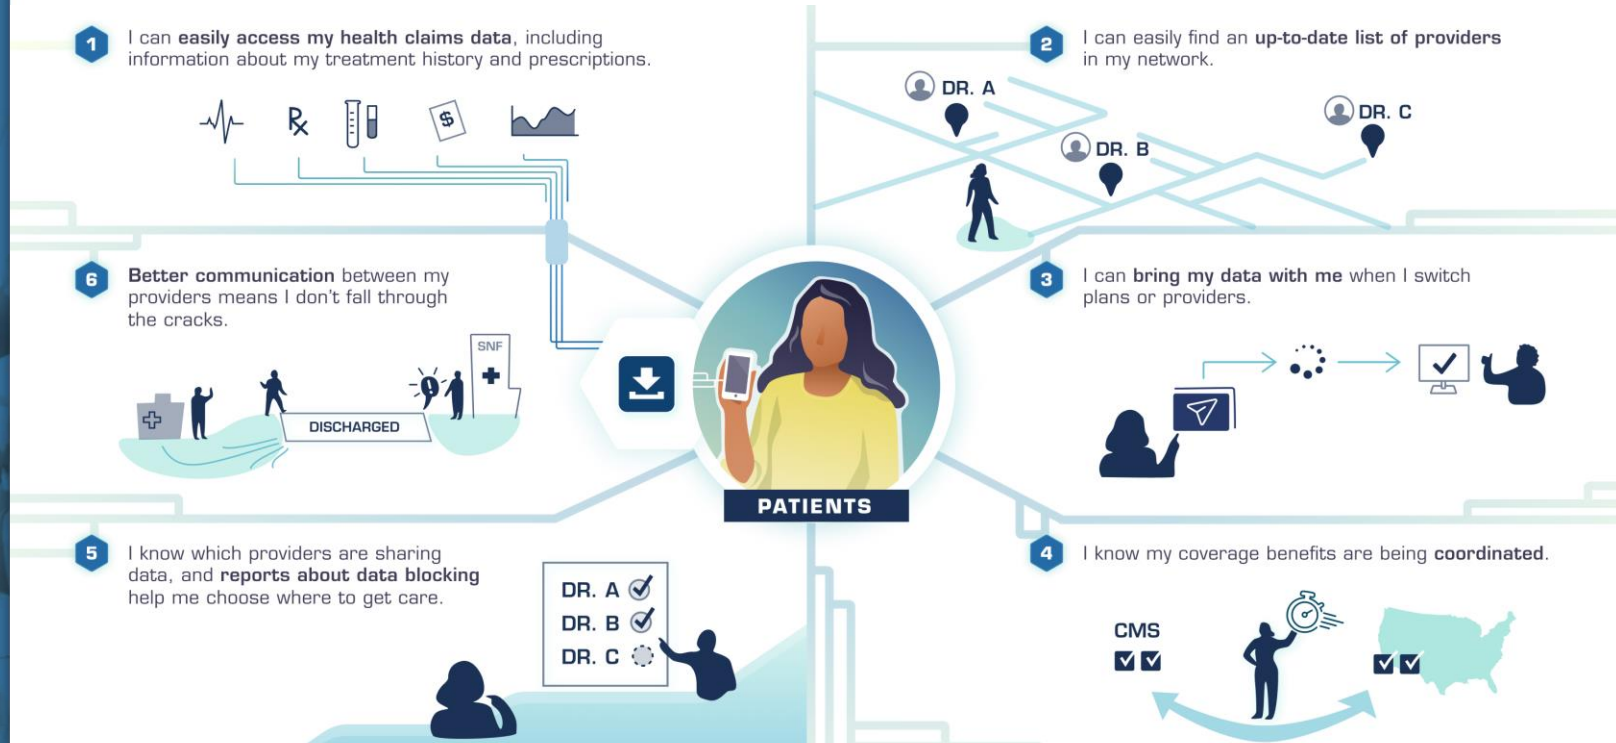

How might we get there?

#HIMSS19

The proposed rule lays the foundation to healthcare interoperability.

How might these proposals impact me?

The proposals would help empower me to take ownership over my health data.

#HIMSS19

How might these proposals impact me?

- 1** With **better access to patient data**, I can provide more informed treatment recommendations and help my patients make better care decisions.

- 2** I know how to **contact other providers** my patient is seeing so we can share information and provide coordinated care.

- 4** As a participant in **alternative payment models**, I can showcase my commitment to health care interoperability and standards-based data exchange.

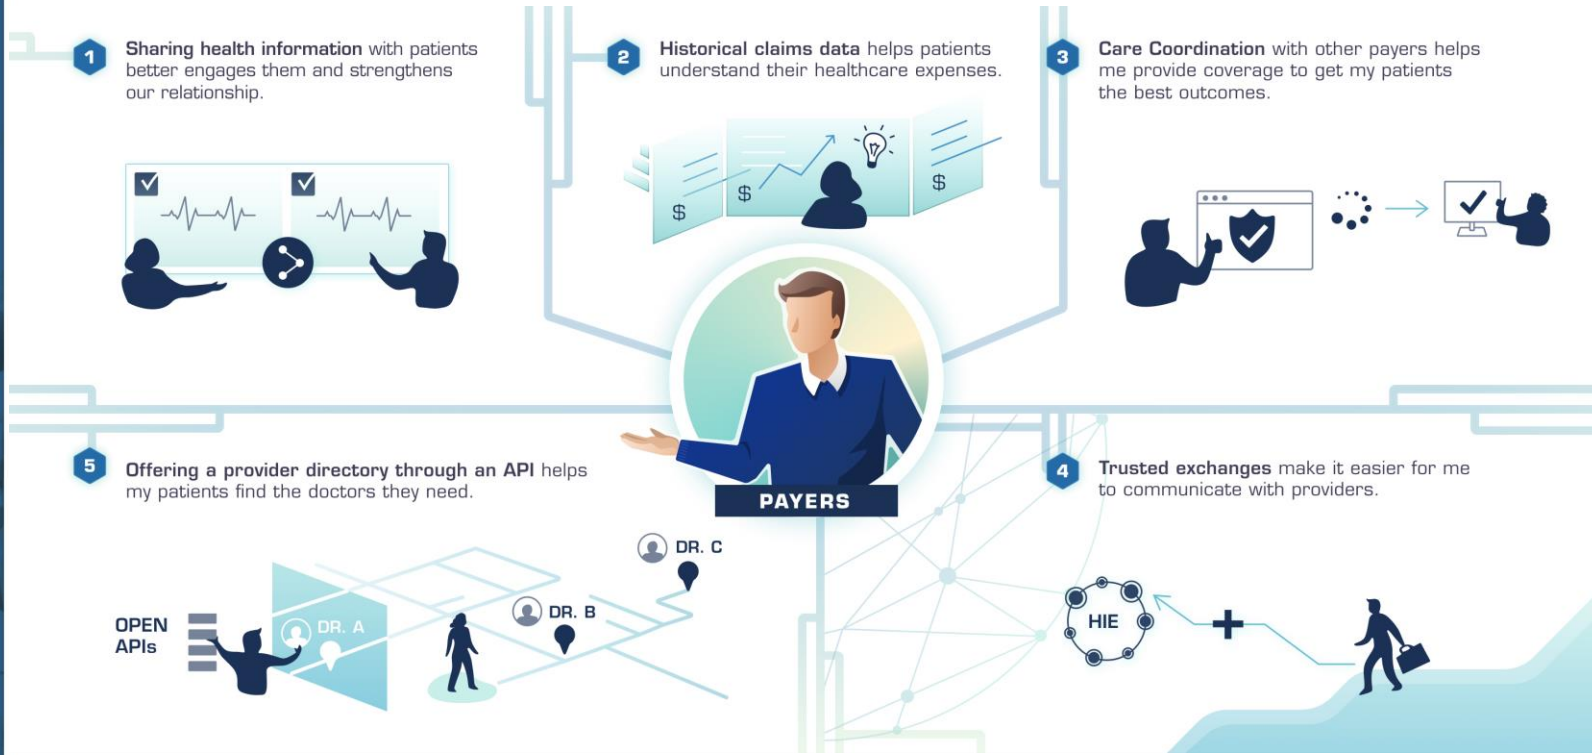

- 3** **E-notifications** that my patients are admitted or discharged keep me in the loop.

The proposals would help me to confidently provide better care to patients.

How might these proposals impact me?

The proposals would increase my ability to provide more efficient and coordinated coverage.
