# Medical Review Documentation Compliance and Technology Contract

- Customer Value Partners  
(CVP) Fairfax, VA 22030  
[www.cvpcorp.com](http://www.cvpcorp.com)
  - Tasked with providing services to facilitate health care providers' medical record documentation and Medicare contractors' review of medical record documentation.
  - Mechanism:
    - Data entry templates submitted by providers.
    - Medical Review (MR) documentation guidelines used by contractors with guidance from the creation of business rules that support each electronic topic.
- Participating CVP technical support for this SODF:
  - Dr. Mark Pilley, Medical Director, CVP
  - Robert Dieterle, CEO EnableCare, LLC

# Home Oxygen Clinical Data Elements -- Drafts

– [https://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/Electronic-Clinical-Templates/Home\\_Oxygen\\_Templates.html](https://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/Electronic-Clinical-Templates/Home_Oxygen_Templates.html)

- Version 1 = V1.0 (Drafts 07/28/2016).
- Version 2 = V2.0 (Drafts 10/20/2016).

Version 3 = V3.0 (Drafts 12/21/2016).

- Home Oxygen Therapy Order -- Suggested Clinical Data Elements.
  - Home Oxygen Therapy Order– Suggested CDE Visualization Examples.
- Home Oxygen Therapy F2F Encounter– Suggested Clinical Data Elements.
  - Home Oxygen Therapy F2F Encounter– Suggested CDE Visualization Examples.
- Home Oxygen Therapy Lab Test Results– Suggested Clinical Data Elements.
  - Home Oxygen Therapy Lab Test Results– Suggested CDE Visualization Examples.
- CMS presentation slides to be used in support of the Special Open Door Forum<sup>3</sup> conference call, “Oxygen Therapy Clinical Data Elements”, held on January 5, 2017; 3:00-4:00 pm Eastern Time.

# Home Oxygen Therapy Clinical Data Elements Feedback on Version 2.0

- CMS received feedback on the Version 2.0 of the draft clinical data elements.
- Respondents provided a broad set of input on the approach, format, scope, and appropriateness.
- The following summarizes the most significant comments:
  - Provide clear headings for related sets for data elements (e.g. beneficiary information)
  - Provide a visual example of each data element and its value set (where appropriate)
  - Add additional elements to the F2F encounter to capture text and specific conditions
  - Add additional option to order for an oxygen conserving device
  - Verify that the suggested elements will work for pediatric patients

# Home Oxygen Therapy Clinical Data Elements General Changes for Version 2.0

In response to these comments, CMS has proved:

- A third draft version of the suggested Clinical Data Elements with related elements clearly defined
- Visualization examples as a companion document for each of the Clinical Data Element lists
- For the Home Oxygen Therapy Face-to-Face Encounter:
  - Added additional elements to the F2F list to capture specific conditions that may affect coverage
  - Added additional elements to record free form observations (e.g. text).
- For the Home Oxygen Therapy Order:
  - Added CDE to support ordering an oxygen conserving device
