

## **HPMS E-Mail**

**Date:** October 06, 2016

**Subject:** HPMS Marketing Module Enhanced Functionality

Today, CMS is announcing the addition of improved functionality to the HPMS Marketing Module. Plans/Part D Sponsors can now add newly approved contracts to existing materials in HPMS. If a plan/sponsor has previously submitted materials under a Multi Contract Entity (MCE) or the "Y" number, additional contract numbers can be added via "Update Material" page. Plans/Part D Sponsors may not delete contracts once they are associated with an MCE material and plans/sponsors may not make changes to approved materials. Please refer to the HPMS Marketing Module User Guide for additional information.

Note: This functionality does not apply to Medicare-Medicaid or PACE specific codes.

Please contact the HPMS Help Desk at 1-800-220-2028 or [hpms@cms.hhs.gov](mailto:hpms@cms.hhs.gov) for technical questions related to HPMS submissions.
