

## HPMS EMAIL

**Date:** December 23, 2016

**Subject:** PACE Innovation Act Request for Information

### Message:

On December 23, 2016, the Centers for Medicare & Medicaid Services (CMS) released a Request for Information (RFI) seeking public input on potential adaptations of the model of care employed by the Programs of All-Inclusive Care for the Elderly (PACE) for new populations, including individuals with physical disabilities, under the authority provided by the PACE Innovation Act. The PACE Innovation Act of 2015 (PIA) provides authority to test application of PACE-like models for additional populations, including populations under the age of 55 and those who do not qualify for a nursing home level of care, under Section 1115A of the Social Security Act.

The RFI includes two parts:

- In the first part, CMS seeks comment on potential elements of a five-year PACE-like model test for individuals dually eligible for Medicare and Medicaid, age 21 and older, with disabilities that impair their mobility and who are assessed as requiring a nursing home level of care, among other eligibility criteria. We have provisionally named this model “Person Centered Community Care” or P3C. This potential model is designed to meet the requirements of a model test under Section 1115A of the Social Security Act and to adapt the PACE model of care for one population of focus. In addition to feedback on the potential elements of the P3C model described in the RFI, CMS seeks comment on the types of technical assistance that potential P3C organizations and states would require to participate in the model test.
- In the second part of the RFI, CMS seeks information on additional specific populations whose health outcomes could benefit from enrollment in PACE-like models, and how the PACE model of care could be adapted to better serve the needs of these populations and the currently eligible population.

The RFI is available at: <https://www.cms.gov/Medicare-Medicaid-Coordination/Medicare-and-Medicaid-Coordination/Medicare-Medicaid-Coordination-Office/PACEInnovationAct.html>

CMS welcomes feedback on this RFI from all interested parties. To be assured consideration, comments must be received by 5 p.m. EST on February 10, 2017. Comments should be submitted electronically in PDF form to [MMCOcapsmodel@cms.hhs.gov](mailto:MMCOcapsmodel@cms.hhs.gov). Please identify the organization or individual submitting comments in the title of the document.
