

SUBJECT: Release of the new HPMS PACE Quality Monitoring Module and Training Announcement

MESSAGE:

The HPMS PACE Quality Monitoring Module will be released on April 2, 2018 and will combine PACE Level I and II data, which will now be collectively known as “PACE Quality Data.” Beginning April 2, 2018, PACE organizations must use the HPMS module to report all Quarter 2 PACE Quality Data and may no longer use the portal for these submissions. However, the portal will remain available for PACE Organizations to provide responses to previously submitted PACE Level II events and to ask policy questions.

CMS will conduct training on the new PACE Quality Monitoring Module and reporting requirements on March 22, 2018. The training will be recorded and posted to the Division of Medicare Advantage Operations (DMAO) portal website at: <https://dmao.lmi.org>.

PACE Quality Monitoring Module Training

Thursday, March 22, 2018, 2:00-3:30 pm ET

Toll free dial in: 1-877-267-1577

Access code: 999 738 861
